

provided they are cut in the United States and are of a type described below:

(1) A chest type plate, "hymo" piece or "sleeve header" of woven or weft-inserted warp knit construction of coarse animal hair or man-made filaments used in the manufacture of men's or boys' tailored suit jackets and suit-type jackets;

(2) A weft-inserted warp knit fabric which contains and exhibits properties of elasticity and resilience which render the fabric especially suitable for attachment by fusing with a thermo-plastic adhesive to the coat-front, side body or back of men's or boys' tailored suit jackets and suit-type jackets.

(3) A woven fabric which contains and exhibits properties of resiliency which render the fabric especially suitable for attachment by fusing with a thermo-plastic adhesive to the coat-front, side body or back of men's or boys' tailored suit jackets and suit-type jackets.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

March 20, 1998.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends but does not cancel the directive issued to you on September 15, 1997, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns the foreign origin exception for findings and trimmings under the Special Access Program.

Effective on March 23, 1998, by date of export, you are directed to extend, for the six-month period March 23, 1998 through September 22, 1998, the amendment to treat non-U.S. formed, U.S.-cut interlinings, further described below, for men's and boys' wool and man-made fiber suit jackets and suit-type jackets in Categories 433, 443, 633 and 643 as qualifying for the exception for findings and trimmings, including elastic strips less than one inch in width, created under the Special Access Program established effective September 1, 1986 (see 51 FR 21208). In the aggregate, such interlinings, findings and trimmings must not exceed 25 percent of the cost of the components of the assembled article.

The amendment implemented by this directive shall be of a temporary nature. The amendment will terminate on September 22, 1998, by date of export.

As described above, non-U.S. formed, U.S.-cut interlinings may be used in imports of men's or boys' suit jackets and suit-type jackets entered under the Special Access Program (9802.00.8015) provided they are cut in the United States and of a type described below:

(1) A chest plate, "hymo" piece or "sleeve header" of woven or weft-inserted warp knit construction of coarse animal hair or man-

made filaments used in the manufacture of men's or boys' tailored suit jackets and suit-type jackets;

(2) A weft-inserted warp knit fabric which contains and exhibits properties of elasticity and resilience which render the fabric especially suitable for attachment by fusing with a thermo-plastic adhesive to the coat-front, side body or back of men's or boys' tailored suit jackets and suit-type jackets.

(3) A woven fabric which contains and exhibits properties of resiliency which render the fabric especially suitable for attachment by fusing with a thermo-plastic adhesive to the coat-front, side body or back of men's or boys' tailored suit jackets and suit-type jackets.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.
