

**NOTIFICATION PROCEDURES:**

An individual can determine if this system contains a record with information pertaining to him/her by providing his/her name, signature, and SSN to the address shown under "System manager and address" above. (Furnishing the SSN is voluntary, but it makes searching for an individual's record easier and avoids delay.) If the SSN is unknown or no SSN has been assigned because the evidence presented with the application is being verified or has been determined to be fraudulent, the individual should provide name, signature, date and place of birth, sex, mother's birth name, and father's name, and evidence of identity. Information in this system of records is available to the subjects of the records.

**RECORD ACCESS PROCEDURES:**

Same as notification procedures. Also, requesters should reasonably specify the record contents which they are seeking.

**CONTESTING RECORD PROCEDURES:**

Same as notification procedures above. Also, requesters should reasonably identify the record, specify the information which they are contesting, and state the corrective action sought and the reasons for the correction, with supporting justification showing how the record is incomplete, untimely, inaccurate, or irrelevant.

**RECORD SOURCE CATEGORIES:**

Information in this system is obtained from SSN applicants (or individuals acting on their behalf). The SSN itself is assigned to the individual as a result of internal processes of this system.

**SYSTEM EXEMPTIONS FROM CERTAIN PROVISIONS OF THE ACT:**

None.
