Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. Abstract: The reauthorized Elementary and Secondary Education Act (ESEA), in general, and its provision for submission of consolidated plans, in particular (see section 14301 of the ESEA), emphasize the importance of cross-program coordination and integration of federal programs into educational activities carried out with State and local funds. Yet while nearly all States receive ESEA formula grant program funding on the basis of consolidated plans, until now the Department has still required states to report on program performance and beneficiaries on a program-by-program basis. Continuing to do so sends an inconsistent message about the value of consolidated planning and program integration as tools for increasing student achievement. This consolidated state reporting instrument would replace individual program reporting under ESEA programs and Goals 2000 for all entities that submit ESEA consolidated plans (and be an optional reporting vehicle for the other states). It will allow state and local officials and educators to see, at one time, the full scope of their reporting (and corresponding data collection) responsibilities, and promote the Department's interest in (1) receiving essential information on how states have implemented their approved consolidated state plans and (2) promoting the Department's ability to provide assistance to states on how they may be able to use federal funds most effectively. In addition, the state consolidated performance report is intended as an initial step toward an optimal design to track indicators of program performance, including those the Department is required to develop under the Government Performance and Results Act. It is expected that reporting in future consolidated instruments will
