Take notice that on March 16, 1998, Portland General Electric Company (PGE) tendered for filing a revised Application for Order Accepting Initial Rate Schedule and Granting Waivers and Blanket Authority, to become effective March 31, 1998.

The proposed tariff (FERC Electric Service Tariff No. 10) provides the terms and conditions pursuant to which PGE will sell electric capacity and energy transactions on the California Power Exchange (PX). In these transactions, PGE intends to charge market-based rates as determined by the auction settlement procedures prescribed by the PX Operating Agreement and Tariff of the California Power Exchange Corporation filed in Docket No. ER96-1663.

7. California Power Exchange Corporation

[Docket No. ER98-2095-000]

Take notice that on December 16, 1997, the California Power Exchange Corporation (PX) tendered for filing one executed copy of the PX Participation

Agreement pursuant to the requirement that all service agreements be filed pursuant to Section 205 of the Federal Power Act. In so doing, the PX requests that the Commission disclaim jurisdiction over the filing of such PX Participation Agreements (and related addenda) because those agreements are not agreements for the sale of transmission of energy in interstate commerce, no do the agreements affect the rate for energy traded through the PX. Therefore, the PX Participation Agreement is not the type of contract that is required to be filed pursuant to Section 205. In the alternative, the PX requests that if the Commission finds that the agreements are of the type required to be filed, the PX requests that the Commission grant a waiver of such filing requirement for the reasons set forth in the filing.

For informational purposes, the PX also files three addenda to the PX Participation Agreement that it requires to implement specific provisions of Rate Schedule 1 of the PX Tariff, which was filed on October 17, 1997, in Docket No. ER98-210-000. The PX believes that because these addenda implement provisions already filed with the Commission, it is unnecessary for them to be filed pursuant to Section 205. However, to the extent that the Commission finds that these addenda must be filed to be part of the PX Tariff, the PX requests that the Commission accept its filing as a filing pursuant to Section 205 and requests that the Commission grant any waivers necessary for those tariff changes to become effective on January 1, 1998.

Copies of the filing were served upon all parties in Docket Nos. EC96-19-008 and ER96-1663-009.

Comment date: April 3, 1998, in accordance with Standard Paragraph E at the end of this notice.

The amendments would add Black Start service from some units to the ancillary services already provided by SDG&E under these agreements; modify billing, settlement and payment procedures to conform to current ISO practices; and update and correct unit performance data. SDG&E has requested that these

proposed changes be consolidated with the existing proceeding. SDG&E requests that the proposed amended MMRA be made effective subject to refund by March 31, 1998, the anticipated effective date of the California Independent System Operator Corporation.
