SUPPLEMENTARY INFORMATION: Ocean Freight Forwarder Licensing—OMB approval number 3072-0012 expires August 31, 1998.

Abstract: Section 19 of the Shipping Act of 1984, 46 U.S.C. app. § 1718, requires that no person shall act as a freight forwarder unless they hold a license by the Federal Maritime Commission. The Act requires the Commission to issue a license to any person that it determines to be qualified by experience and character to act as an ocean freight forwarder if that person has provided a surety bond issued by a surety company found acceptable by the Secretary of the Treasury. The Commission has implemented the provisions of Section 19 in regulations contained in 46 CFR Part 510 and its related application form, FMC-18.

Needs and Uses: The Commission uses information obtained from Form FMC-18 as well as information contained in the Commission's files and letters of reference to determine whether an applicant meets the requirements for a license. If the collection of information were not conducted, there would be no basis upon which the Commission could determine if applicants are qualified for licensing.

Frequency: This information is collected as applicants apply for a license or when certain information changes in existing licenses.

Type of Respondents: Persons desiring to act as freight forwarders.

Number of annual respondents: The Commission estimates an annual respondent universe of 2,007 licensed freight forwarders. The Commission estimates that the rule will impose, in varying degrees, a reporting burden on the entire respondent universe.

Estimated time per response: The completion time for the Form FMC-18 is estimated to be 2 person hours on average with the range being .5 hours to 4 hours. It is estimated that 694 person hours will be expended by respondents to complete Form FMC-18.

Total Annual Burden: The Commission estimates the total annual burden to be 2,018 person hours, as follows: 822 hours to comply with the regulation provisions; 502 hours for recordkeeping requirements; and 694 hours to complete the Form FMC-18.

Foreign Commerce Anti-rebating Certification—OMB approval number 3072-0028 expires August 31, 1998.

Abstract: Section 15(b) of the Shipping Act of 1984, 46 U.S.C. app. § 1714(b), requires the chief executive officer of each common carrier and certain other persons to file with the Commission a periodic written certification that anti-rebating policies have been implemented and that full cooperation will be given to any Commission investigation of illegal rebating activity. The Commission has implemented the provisions of section 15(b) in regulations contained in 46 CFR 582.

Needs and Uses: The Commission uses the information filed by these parties to maintain continuous surveillance over the activities of these entities and to provide an effective deterrent against rebating practices.

Frequency: This information is collected with the filing of a carrier's initial tariff and the applicant's licensed ocean freight forwarder application. On each subsequent even-numbered calendar year, certifications are required to be filed.

Type of Respondents: Respondents may include the chief executive officer of each common carrier and ocean freight forwarder, shipper, shipper's association, marine terminal operator or broker.

Number of Annual Respondents: The Commission estimates a total of approximately 4,857 respondents as follows: 2,450 Non-vessel Operating Common Carriers, 400 Vessel Operating Common Carriers and 2,007 ocean freight forwarders.

Estimated Time Per Response: The Commission estimates approximately .5 person hours per response.

Total Annual Burden: Total annual burden is estimated at 2,429 person hours. NVOCC Surety Bonds—OMB approval number 3072-0053 expires September 30, 1988.

Abstract: Section 23(a) of the Shipping Act of 1984, 46 U.S.C. app. § 1721(a), requires each non-vessel operating common carrier (NVOCC) to furnish the Commission with an acceptable bond, proof of insurance or other surety, which is to be available to pay for damages arising from transportation-related activities, reparations or penalties. The Commission has implemented the provisions of section 23(a) in regulations contained in 45 CFR 583.

Needs and Uses: The Commission uses the information to maintain continuous surveillance over NVOCCs and to enable the Commission to discharge its duties under the Act. Upon

request, the Commission provides information to the public regarding a carrier's evidence of financial responsibility.

Frequency: Documents are filed annually.

Type of Respondents: Non-Vessel Operating Common Carriers.

Number of annual respondents: The Commission estimates that approximately 2,450 NVOCCs will file these documents.

Estimated Time per response: The Commission estimates one person hour per response for each filing.

Total Annual Burden: Total annual manhour burden is estimated at 2,450 hours.

Before the Commission submits these renewal packages to the Office of Management and Budget, the Commission is inviting public, written comments on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the Commission's burden estimates for the proposed collections of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Dated: March 20, 1998.

Secretary.
