14 CFR Part 71

[Airspace Docket No. 97–AEA–47]

Amendment to Class E Airspace; Pennington Gap, VA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action removes Class E airspace at Lee County Airport, Pennington Gap, VA. All instrument

procedures for the airport have been cancelled. The need for Class E airspace no longer exists for Instrument Flight Rules (IFR) operations at the airport. This action will result in the airspace reverting to Class G airspace.

EFFECTIVE DATE: 0901 UTC, June 18, 1998.

FOR FURTHER INFORMATION CONTACT: Mr. Francis Jordan, Airspace Specialist, Airspace Branch, AEA–520, Air Traffic Division, Eastern Region, Federal Aviation Administration, Federal Building #111, John F. Kennedy International Airport, Jamaica, New York 11430; telephone: (718) 553–4521.

SUPPLEMENTARY INFORMATION:

History

On January 27, 1998, a proposal to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to remove the Class E airspace extending upward from 700 feet above the surface at Lee County Airport, Pennington Gap, VA, was published in the **Federal Register** (63 FR 3856).

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas designations for airspace extending upward from 700 feet AGL are published in paragraph 6005 of FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be removed subsequently from the Order.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) removes Class E airspace at Pennington Gap, VA. The need for controlled airspace extending from 700 feet AGL at the Lee County Airport no longer exists. This area will be removed from the appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44

FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this a routine matter that will only affect air traffic procedures and air navigation it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
