

*Type of Request:* To extend a currently approved information collection.

*Abstract:* The primary objective of the National Agricultural Statistics Service is to prepare and issue state and national estimates of crop and livestock production. The Mink Survey collects data on the number of mink pelts produced, the number of females bred, and the number of mink farms. Mink estimates are used by the federal government to calculate total value of sales and total cash receipts. Data are used by state governments to administer fur farm programs and health regulations. Universities use the data in research projects. The Mink Survey has approval from OMB for a 3-year period. NASS intends to request that the survey be approved for another 3 years.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 10 minutes per response.

*Respondents:* Farmers.

*Estimated Number of Respondents:* 425.

*Estimated Total Annual Burden on Respondents:* 71 hours.

Copies of this information collection and related instructions can be obtained without charge from Larry Gambrell, the Agency OMB Clearance Officer, at (202) 720-5778.

#### Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, such as through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to:

Larry Gambrell, Agency OMB Clearance Officer, U.S. Department of Agriculture, 1400 Independence Ave. SW, Room 4162 South Building, Washington, D.C. 20250-2000. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Signed at Washington, D.C., March 19, 1998.

##### Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* Bureau of the Census.

*Title:* Current Population Survey—June 1998 Fertility and Birth Expectations Supplement.

*Form Number(s):* The automated survey instrument has no form number.

*Agency Approval Number:* 0607-0610.

*Type of Request:* Reinstatement, with change, of a previously approved collection.

*Burden:* 795 hours.

*Number of Respondents:* 30,000.

*Avg. Hours Per Response:* 95 seconds (about one and one half minutes).

*Needs and Uses:* The Current Population Survey (CPS) is a survey conducted in approximately 48,000 households monthly throughout the United States. Data on demographic and labor force characteristics are collected from a sample of households which represent the U.S. population. The Bureau of the Census uses the data to compile monthly averages of household size and composition, age, education, ethnicity, marital status and various other characteristics at the U.S. level. The Bureau of Labor Statistics also uses the data in its monthly calculations of employment and unemployment.

The basic monthly questionnaire is periodically supplemented with additional questions which address specific needs. The Census Bureau is requesting clearance for the collection of data concerning the Fertility and Birth Expectations Supplement to be conducted in conjunction with the June 1998 CPS. The Census Bureau sponsors the supplement questions, which were previously collected in June 1992, and have been asked periodically since 1971. A supplement on Marital History and Fertility was collected in June 1995.

This survey provides information used mainly by government and private analysts to project future population growth, to analyze child spacing, and to

aid policy makers in their decisions affected by changes in family size and composition. Past studies have discovered noticeable changes in the patterns of fertility rates, family structures, premarital births, and the timing of the first birth. Potential needs for government assistance such as aid to families with dependent children, child care, and maternal health care for single parent households can be estimated using CPS characteristics matched with fertility data. The birth expectations data also assist researchers and analysts who explore issues such as postponement of childbirth because of education or employment responsibilities.

*Affected Public:* Individuals or households.

*Frequency:* Annually.

*Respondent's Obligation:* Voluntary.

*Legal Authority:* Title 13 U.S.C., Section 182.

*OMB Desk Officer:* Nancy Kirkendall, (202) 395-7313.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce, room 5327, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent on or before April 30, 1998, to Nancy Kirkendall, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: March 25, 1998.

**Linda Engelmeier,**
