BILLING CODE 6820-EP-U

DEPARTMENT OF DEFENSE

Department of the Army

**Final Environmental Impact Statement
(FEIS) on the Disposal and Reuse of
the Seneca Army Depot Activity, NY**

AGENCY: Department of the Army, DOD.

ACTION: Notice of availability.

SUMMARY: The proposed action evaluated by this FEIS is the disposal of the Seneca Army Depot Activity (SEDA), New York, in accordance with the Defense Base Closure and Realignment Act of 1990, Public Law 101-510, as amended.

The FEIS addresses the environmental impacts of the disposal and subsequent reuse of the entire installation except for the property required to create and maintain an enclave for storage of hazardous materials and ores as directed by the BRAC Commission. Alternatives examined in the FEIS include encumbered disposal of the property, unencumbered disposal of the property and retention of the property in a caretaker status (*i.e.*, the no action alternative). The Army's preferred alternative for disposal of SEDA property is encumbered disposal, with encumbrances pertaining to historical resources, remedial activities, easements, wetlands, groundwater use, and unexploded ordnance.

Disposal of the Depot property is the Army's primary action. Reuse of the property is a secondary action that will be taken by others. The FEIS also analyzes the potential environmental effects of reuse by means of evaluating intensity-based probable reuse scenarios. Appropriate to the Depot are low, medium-low, and medium intensity reuse scenarios reflecting the range of activities that could occur after disposal of the property.

The Army proposes to make the majority of the 10,594 acres available to the Seneca County Industrial Development Authority (IDA). The U.S. Coast Guard would obtain 292 acres for continued use of a LORAN-C antenna station. The Army would retain 30 acres for the establishment of a BRAC Commission directed enclave for storage of hazardous materials and ores. This would leave approximately 10,272 acres available for transfer or conveyance.
