SUPPLEMENTARY INFORMATION:

Background

By notice in the **Federal Register** on May 22, 1997, the NPS and FAA announced the establishment of the NPOWG. The working group was established to recommend a notice of proposed rulemaking which would define the process to reduce or prevent the adverse effects of commercial sightseeing flights over the National Parks where deemed necessary. The working group held sessions from May through October, 1997. In December 1997, the NPOWG presented its concept paper to the NPS' Advisory Board and the FAA's Aviation Rulemaking Advisory Committee (ARAC). Both the ARAC and the Advisory Board approved the concept paper.

Following the approval of the concept paper, the NPOWG agreed to work with the NPS and FAA to develop a complete NPRM. The purpose of the meeting in Denver is to review a draft NPRM, which the agencies have provided to the NPOWG, and to complete work on that draft.

Meeting Protocol

The April 14-15 meeting will be open to the public. In keeping with the organizational protocols developed by the working group, the following rules apply: Only working group members (or their alternates when filling in for a member) will be seated at the negotiating table. Only they will be speaking from the floor during the negotiations without working group approval. However, any member may call upon another individual to elaborate on a relevant point, and the NPS and FAA advisors to the working group have the full right to the floor and may raise and address appropriate points. Any other person attending working group meetings may address the working group if time permits and may file statements with the working group for its consideration.
