

Written Comments The Department received one written comment from the representative of the applicant. The comment pertains to the applicant's original submission of two appraisals of the Property, one for \$90,000 and the other for \$120,000. Because of the significant disparity between the appraisals, the Department determined that the average of the two, \$105,000, most appropriately represented the fair market value of the Property. The commentator proposes that the applicant update both appraisals as of the transfer date and suggests that the fair market value of the Property should be the average of the two appraisals. The Department is of the view that in this instance, this method of valuation is appropriate and is hereby adopted for purposes of this exemption. Accordingly, the language of condition (c) of the exemption is hereby changed from "The Account receives the greater of the fair market value of the Property as of the date of sale or \$105,000," to "The Account receives an amount equal to the average of the two updated appraisals of the Property as of the date of Sale."

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the

transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 2nd day of April, 1998.
