

The Commission is exempt from Executive Order 12866 and its provisions do not apply to this rule. Even if the Order were applicable, the rule would not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act. The implementation of the rule will have no adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Finally, the Secretary of the Panama Canal Commission certifies these changes meet the applicable standards set out in sections 2(a) and 2(b)(2) of Executive Order 12778.

#### Acid Rain Program: Revisions to Sulfur Dioxide Opt-Ins

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** Title IV of the Clean Air Act, as amended by Clean Air Act Amendments of 1990, ("Act") authorizes the Environmental Protection Agency ("EPA" or "Agency") to establish the Acid Rain Program. The purpose of the Acid Rain Program is to significantly reduce emissions of sulfur dioxide and nitrogen oxides from electric generating plants in order to reduce the adverse health and ecological impacts of acidic deposition (or acid rain) resulting from such emissions. This final rule is intended to promote participation in the title IV opt-in program by clarifying existing regulations, allowing a limited exception to the general rule of one designated representative for all affected units at a source, revising the conditions under which the Agency may cancel current-year allowance allocations, and allowing thermal energy plans to be effective on a quarterly basis.

**DATES:** This rule is effective May 18, 1998.

**Judicial Review.** Under section 307(b)(1) of the Act, judicial review of this rule is available only by filing a petition for review in the U.S. Court of Appeals for the District of Columbia Circuit within 60 days of today's publication of these final rule revisions. Under section 307(b)(2) of the Act, the requirements that are the subject of today's document may not be challenged in civil or criminal proceedings brought by the EPA to enforce these requirements.
