Coal Lease Offering

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Coal Lease Offering By Sealed Bid MTM 80697—Western Energy Company.

SUMMARY: Notice is hereby given that the coal resources in the lands described below in Rosebud County, Montana, will be offered for competitive lease by sealed bid. This offering is being made as a result of an application filed by Western Energy Company, in accordance with the provisions of the Mineral Leasing Act of 1920 (41 Stat. 437; 30 U.S.C. 181-287), as amended.

An Environmental Assessment of the proposed coal development and related

requirements for consultation, public involvement, and hearing have been completed in accordance with 43 CFR 3425. Concerns and issues expressed by the public during the public scoping process centered on social, economic, and cultural impacts to the Northern Cheyenne and Crow Tribes, hydrologic impacts to the area, and the need to do an Environmental Impact Statement as the appropriate level of environmental documentation for the development of the coal resources. Three alternatives (Preferred, No Action, and Cultural Resource Avoidance) were developed to analyze impacts and to address issues relating to the proposed action. The Preferred Alternative, including special stipulations and mitigation measures, was chosen because it will maximize the beneficial use of the subject coal resource and will mitigate impacts to one historic site and two sites which have high values as traditional cultural properties.

The tract will be leased to the qualified bidder of the highest cash amount provided that the high bid meets the fair market value of the coal resource. The minimum bid for the tract is \$100 per acre, or fraction thereof. No bid that is less than \$100 per acre, or fraction thereof, will be considered. The minimum bid is not intended to represent fair market value. The fair market value will be determined by the authorized officer after the sale.

Coal Offered

The coal resource to be offered consists of all recoverable reserves in the following-described lands located approximately 10 miles west of the town of Colstrip, Montana:
