Proposed Projects

*1. Contents of a Request of Health Hazard Evaluation (0920-0102)—Extension—*In accordance with its mandates under the Occupational Safety and Health Act of 1970 and the Federal Mine Safety and Health Act of 1977, the National Institute for Occupational Safety and Health (NIOSH) responds to approximately 400 requests for health hazard evaluations each year to identify potential chemical, biological or physical hazards at the workplace. A NIOSH form is available for requesting these health hazard evaluations. This form provides the mechanism for employees, employers, and other authorized representatives to supply the information required by the regulations which govern the NIOSH health hazard evaluation program (42 CFR 85.3-1). The information provided is used by NIOSH to determine whether or not there is reasonable cause to justify conducting an investigation. The main purpose of investigations conducted in the health hazard evaluation program is to help employers and employees identify and eliminate occupational health hazards. Without the information requested on this form, NIOSH would be unable to perform its legislated function of conducting health hazard evaluations in workplaces. The total estimated annual cost to respondents is \$1,220.

Respondents	Number of respondents	Number of responses/ respondent (in hrs.)	Average burden/re-sponse (in hrs.)	Total burden (in hrs.)
Employees and Representatives	260	1	.2	52
Employers	140	1	.2	28
