RIN 2120–AA66

**Establishment of VOR Federal Airway; California**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule; confirmation of effective date.

**SUMMARY:** On October 27, 1997, the FAA published a final rule in the **Federal Register** that established Federal Airway 607 (V–607) between Mendocino, CA, and Arcata, CA. On December 8, 1997, the implementation of this airway was delayed to permit the FAA to add an intersection on V–607 and to conduct additional flight inspections. This action confirms the implementation date for V–607 as June 18, 1998.

**EFFECTIVE DATES:** The final rule published in the **Federal Register** on October 27, 1997 (62 FR 55502), and delayed on December 8, 1997 (62 FR 64521), is effective 0901 UTC June 18, 1998.

**FOR FURTHER INFORMATION CONTACT:** Ken McElroy, Airspace and Rules Division, ATA–400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–8783.

**SUPPLEMENTARY INFORMATION:**

On June 20, 1997, the FAA published a Notice of Proposed Rulemaking in the **Federal Register**, inviting comments on a proposal to provide an airway between Mendocino, CA, and Arcata, CA (62 FR 33579). The proposed airway is necessary to efficiently manage air traffic operations during those periods when nonradar procedures are in use. No comments were received in response to the proposal.

On October 27, 1997, the FAA published a final rule amending 14 CFR part 71, establishing V–607 between Mendocino, CA, and Arcata, CA (62 FR 55502). However, on December 8, 1997, the FAA delayed the implementation date of the V–607 amendment to establish an intersection at the dogleg of the Arcata 153° radial and the Mendocino 346° radial and to conduct additional flight inspection (62 FR 64521). This final rule confirms an effective date of June 18, 1998, for the implementation of V–607 between Mendocino, CA, and Arcata, CA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation (1) is not a significant regulatory action under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
