#### Duke Energy Corporation; Notice of Availability of Environmental Assessment

April 16, 1998.

An environmental assessment (EA) is available for public review. The EA was prepared for an application filed by the Duke Energy Corporation, licensee for the Catawba-Wateree Hydroelectric Project. In its application, the licensee requests permission to grant an easement to Ipswitch Bay, LLC to construct a private residential marina consisting of five docks on Lake Norman near Mooresville in Iredell County, North Carolina. The proposal also involves dredging a 60,000 square foot area of the lake (amounting to 8,500 cubic yards of sediment).

Based on the environmental analyses presented in the EA, the Commission's staff has recommended allowing Duke Energy Corporation to grant the proposed easement for non-project use of project land. The EA finds that the proposed action would not constitute a major federal action significantly affecting the quality of the human environment.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA can be obtained by calling the Commission's public reference room at (202) 208-1371.
