

and not listed in *TRBs 1994-95* or *TRBs 1995-96*, the cash deposit rate will continue to be the company-specific rate published for the most recent period;

(3) If the exporter is not a firm covered in these reviews, a prior review, or the original less-than-fair-value (LTFV) investigations, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise;

(4) If neither the exporter nor the manufacturer is a firm covered in these or any previous reviews conducted by the Department, the cash deposit rate for the A-588-054 finding will be 18.07 percent and 36.52 percent for the A-588-604 order (see *Preliminary Results of Antidumping Duty Administrative Reviews; Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, From Japan and Tapered Roller Bearings, Four Inches or Less in Outside Diameter, and Components Thereof, From Japan*, 58 FR 51058 (September 30, 1993)).

The cash deposit rate has been determined on the basis of the selling price to the first unrelated customer in the United States. For appraisal purposes, where information is available, the Department will use the entered value of the merchandise to determine the assessment rate. In the case of Fuji, the Department will calculate an assessment rate in the A-588-054 case which reflects the total value of that merchandise which we deemed to meet the criteria of the "Roller Chain" principle.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

These administrative reviews and this notice are in accordance with section

751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: April 15, 1998.

Robert S. LaRussa,

Assistant Secretary for Import Administration.

International Trade Administration

University of California, San Diego; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 98-008. *Applicant:* University of California, San Diego, La Jolla, CA 92093-0359. *Instrument:* Imaging Plate X-ray Detector for Protein Crystallography. *Manufacturer:* MAR Research, Germany. *Intended Use:* See notice at 63 FR 11870, March 11, 1998.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* The foreign instrument provides:

(1) High efficiency detection of molybdenum K_{α} x-rays at resolution to 0.12nm and (2) exposure time of just 90s allowing use of a single imaging plate under computer control and data readout. The Stanford Synchrotron Radiation Laboratory advised April 15, 1998 (1) these capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Frank W. Creel,

Director, Statutory Import Programs Staff.

Application for Duty-Free Entry of Scientific Instrument

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Application may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 98-021. *Applicant:* University of California, Berkeley, Berkeley, CA 94720. *Instrument:* Electron Neutralizer. *Manufacturer:* Gammadata-Scienta, Sweden. *Intended Use:* The instrument is intended to be used for the study of the phenomena of superconductivity in high critical temperature materials during angle-resolved experiments. The objective of these investigations is to study the electron structure and physical properties of superconducting materials. In addition, the instrument will be used to train graduate students in their thesis research. Application accepted by Commissioner of Customs: April 7, 1998.

Frank W. Creel,

Director, Statutory Import Programs Staff.
