

Proposed Project: The National Health Service Corps (NHSC) and Native Hawaiian Health (NHH) Scholarship Programs Data Collection Worksheets (in Use Without Approval)

The NHSC and NHH Scholarship Programs were established to assure an adequate supply of trained primary care health professionals to the neediest communities in the Health Professional Shortage Areas (HPSAs) of the United States. Under these programs, allopathic physicians, osteopathic physicians, dentists, nurse practitioners, nurse midwives, physician assistants, and, if needed by the NHSC or NHH program, students of other health professions are offered the opportunity to enter into a contractual agreement with the Secretary under which the Public Health Service agrees to pay the total school tuition, required fees, other reasonable costs (ORC) and a stipend for living expenses. In exchange, the scholarship recipient agrees to provide full-time clinical services at a site in a federally designated HPSA.

In order to accurately determine the amount of scholarship support that students will need during their academic training, the Bureau of Primary Health Care must contact each scholar's school for an estimate of tuition, fees, and ORC. The Data Collection Worksheet collects these itemized costs for both resident and nonresident students.

Six hundred schools are expected to submit one report per year. It is expected to take 30 minutes to complete each form, for a total of 300 hours of burden.
