ACTION: Notice.

SUMMARY: Section 5 of the Toxic
Substances Control Act (TSCA) requires
any person who intends to manufacture
or import a new chemical to notify EPA
and comply with the statutory
provisions pertaining to the
manufacture or import of substances not
on the TSCA Inventory. Section 5 of
TSCA also requires EPA to publish
receipt and status information in the
Federal Register each month reporting
premanufacture notices (PMN) and test
marketing exemption (TME) application
requests received, both pending and
expired. The information in this
document contains notices received
from March 16, 1998 to March 20, 1998.

ADDRESSES: Written comments,
identified by the document control
number "[OPPTS-51900]" and the
specific PMN number, if appropriate,
should be sent to: Document Control
Office (7407), Office of Pollution
Prevention and Toxics, Environmental
Protection Agency, 401 M St., SW., Rm.
ETG-099 Washington, DC 20460.

Comments and data may also be
submitted electronically by sending

electronic mail (e-mail) to:
oppt.ncic@epamail.epa.gov. Electronic
comments must be submitted as an
ASCII file avoiding the use of special
characters and any form of encryption.
Comments and data will also be
accepted on disks in WordPerfect in 5.1/
6.1 file format or ASCII file format. All
comments and data in electronic form
must be identified by the docket number
[OPPTS-51900]. No Confidential
Business Information (CBI) should be
submitted through e-mail. Electronic
comments on this notice may be filed
online at many Federal Depository
Libraries. Additional information on
electronic submissions can be found
under "SUPPLEMENTARY
INFORMATION".

All comments which contain
information claimed as CBI must be

information claimed as CBI must also be
submitted and will be placed in the
public record for this notice. Persons
submitting information on any portion
of which they believe is entitled to
treatment as CBI by EPA must assert a
business confidentiality claim in
accordance with 40 CFR 2.203(b) for
each such portion. This claim must be
made at the time that the information is
submitted to EPA. If a submitter does
not assert a confidentiality claim at the
time of submission, EPA will consider
this as a waiver of any confidentiality
claim and the information may be made
available to the public by EPA without
further notice to the submitter.

SUPPLEMENTARY INFORMATION: Under the
provisions of TSCA, EPA is required to

publish notice of receipt and status
reports of chemicals subject to section 5
reporting requirements. The notice
requirements are provided in TSCA
sections 5(d)(2) and 5(d)(3). Specifically,
EPA is required to provide notice of
receipt of PMNs and TME application
requests received. EPA also is required
to identify those chemical submissions
for which data has been received, the
uses or intended uses of such chemicals,
and the nature of any test data which
may have been developed. Lastly, EPA
is required to provide periodic status
reports of all chemical substances
undergoing review and receipt of
notices of commencement.

A record has been established for this
notice under docket number "[OPPTS-
51900]" (including comments and data
submitted electronically as described
below). A public version of this record,
including printed, paper versions of
electronic comments, which does not
include any information claimed as CBI,
is available for inspection from 12 noon
to 4 p.m., Monday through Friday,
excluding legal holidays. The public
record is located in the TSCA
Nonconfidential Information Center
(NCIC), Rm. NEM-B607, 401 M St., SW.,

The official record for this notice, as
well as the public version, as described
above will be kept in paper form.
Accordingly, EPA will transfer all
comments received electronically into
printed, paper form as they are received
and will place the paper copies in the
official record which will also include
all comments submitted directly in
writing. The official record is the paper
record maintained at the address in

"ADDRESSES" at the beginning of this document.

In the past, EPA has published individual notices reflecting the status of section 5 filings received, pending or expired, as well as notices reflecting receipt of notices of commencement. In an effort to become more responsive to the regulated community, the users of this information and the general public, to comply with the requirements of TSCA, to conserve EPA resources, and to streamline the process and make it more timely, EPA is consolidating these separate notices into one comprehensive notice that will be issued at regular intervals.

In this notice, EPA shall provide a consolidated report in the **Federal Register** reflecting the dates PMN requests were received, the projected notice end date, the manufacturer or importer identity, to the extent that such information is not claimed as confidential and chemical identity, either specific or generic depending on whether chemical identity has been

claimed confidential. Additionally, in this same report, EPA shall provide a listing of receipt of new notices of commencement.

EPA believes the new format of the notice will be easier to understand by the interested public, and provides the information that is of greatest interest to the public users. Certain information provided in the earlier notices will not be provided under the new format. The status reports of substances under review, potential production volume, and summaries of health and safety data will not be provided in the new notices.

EPA is not providing production volume information in the consolidated notice since such information is generally claimed as confidential. For this reason, there is no substantive loss to the public in not publishing the data. Health and safety data are not summarized in the notice since it is recognized as impossible, given the format of this notice, as well as the previous style of notices, to provide meaningful information on the subject.

In those submissions where health and safety data were received by the Agency, a footnote is included by the Manufacturer/Importer identity to indicate its existence. As stated below, interested persons may contact EPA directly to secure information on such studies.

For persons who are interested in data not included in this notice, access can be secured at EPA Headquarters in the NCIC at the address provided above. Additionally, interested parties may telephone the Document Control Office at (202) 260-1532, TDD (202) 554-0551, for generic use information, health and safety data not claimed as confidential or status reports on section 5 filings.

Send all comments to the address listed above. All comments received will be reviewed and appropriate amendments will be made as deemed necessary.

This notice will identify: (I) PMNs received; and (II) Notices of Commencement to manufacture/import.
