

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WY-060-1610-00]

Notice of Availability

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability of the second draft Environmental Impact Statement (EIS) for the Newcastle Resource Management Plan (RMP) for the Public Lands administered by the Bureau of Land Management (BLM) in the Wyoming portion of the Newcastle Resource Area.

SUMMARY: The first draft EIS for the Newcastle RMP was issued in September, 1993. It has been decided to update and reissue a second draft for further comment because some public comments were inappropriately accepted on the first draft after the comment period ended. All public comments received on the first draft EIS have been considered and changes in the second draft document have been made based on those comments. When published, the final EIS will contain the proposed Newcastle Resource Management Plan, the comments on the second draft EIS, and the BLM responses to them.

EFFECTIVE DATES: Written comments concerning the analysis will be accepted for 90 days following the date the Environmental Protection Agency (EPA) publishes a notice of availability and filing of the draft EIS in the **Federal Register**. The EPA notice of availability is expected to be published on April 24, 1998.

Public meetings will be held in Sundance, Newcastle, and Lusk, Wyoming, to provide opportunities for the public to meet with representatives from the BLM and to comment on the draft EIS. A court reporter will be in attendance to record all comments for the record. When the times, dates, and places for these meetings are established, the public will be notified in advance through **Federal Register** or other notices, news releases, or mailings. Persons who wish to be placed

on the mailing list or participate in the Newcastle RMP planning process should contact the person(s) identified below at the Newcastle Resource Area Office.

The draft EIS may be viewed at the following locations: Newcastle Resource Area BLM Office, 1101 Washington Blvd., Newcastle, Wyoming; Wyoming BLM State Office, 5353 Yellowstone Road, Cheyenne, Wyoming; and county and city libraries in Crook, Niobrara and Weston counties. Copies of the draft EIS may be obtained from the address below.

FOR FURTHER INFORMATION CONTACT: Gary Johnson, Area Manager, or Project Leaders, Jack Hanson or Shelley Peele, Bureau of Land Management, Newcastle Resource Area, 1101 Washington Blvd., Newcastle, Wyoming 82701, phone 307-746-4453.

Comments, including names and street addresses of respondents, will be available for public review at the above address during regular business hours (7:45 a.m. to 4:30 p.m.), Monday through Friday, except holidays, and may be published with the final EIS. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION: The Bureau of Land Management Newcastle Resource Area administers all public lands and minerals (as defined by the Federal Land Management Policy Act (FLPMA)) in Crook, Niobrara, and Weston counties. The draft EIS for the Newcastle RMP presents four alternative multiple use management plans (or four alternative RMPs) for those public lands that were analyzed in detail: Alternative A (continuation of existing management direction) and three other alternatives

that provide a variety of land use and resource management options for the public lands.

Issues addressed in the draft EIS include split-estate lands and the related limitations of BLM management responsibilities (particularly those involving non-Federal land surface over Federally owned minerals), the control of prairie dogs on intermingled public and private land ownerships, whether or not public lands in the Lance Creek Fossil Area should be designated an Area of Critical Environmental Concern (ACEC), and clarification of several maps in the first draft EIS to distinguish between public and non-Federal lands.

Dated: April 27, 1998.

Alan L. Kesterke,

Associate State Director.
