DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Intent To Amend an Incidental Take Permit: Inclusion of Bull Trout on the Plum Creek Timber Company Permit for Timber Harvest in the State of Washington

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: This notice advises the public that the Fish and Wildlife Service (Service) has received a request to add bull trout (Salvelinus confluentus) to the species covered by permit PRT–808398 issued to Plum Creek Timber Company, L.P., on June 27, 1996. This request is pursuant to the Implementation Agreement for the Habitat Conservation Plan accompanying incidental take permit PRT–808398. The Service is proposing to add bull trout to Plum Creek’s permit.

DATES: Written comments regarding the addition of bull trout to the Plum Creek permit should be received on or before June 3, 1998.

ADDRESSES: Written comments should be addressed to Mr. John Engbring, Western Washington Fish and Wildlife Office, 510 Desmond Drive, S.E., Suite 101, Lacey, Washington 98503.

Documents cited in this notice and comments received will be available for public inspection by appointment during normal business hours (8 a.m. to 5 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: Mr. William Vogel, Wildlife Biologist, Western Washington Fish and Wildlife Office, 510 Desmond Drive, S.E., Suite 101, Lacey, Washington 98503; telephone (360) 753–4367.

SUPPLEMENTARY INFORMATION:

Background

On June 27, 1996, the Fish and Wildlife Service (Service) issued an incidental take permit (PRT–808398) to Plum Creek Timber Company, L.P., pursuant to Section 10(a)(1)(B) of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1532 et seq.). This permit authorizes the incidental take of the threatened northern spotted owl (Strix occidentalis caurina), marbled murrelet (Brachyramphus marmoratus marmoratus), and grizzly bear (Ursus arctos=U. horribilis), and the endangered gray wolf (Canis lupus), in the course of the otherwise legal forest management and related land-use activities in portions of King and Kittitas Counties, Washington. Pursuant to the Habitat Conservation Plan and the Implementation Agreement, Plum Creek received assurances from the Service that then-unlisted vertebrate species would be added to the permit upon listing under the Act, if doing so were consistent with the Implementation Agreement.

On June 13, 1997 (62 FR 32268), the Service proposed to list the Klamath River population of bull trout as endangered and the Columbia River population of bull trout as threatened. On September 11, 1997, Plum Creek requested that bull trout be added to its permit. While the Service has not yet made a final decision on listing bull trout as a threatened or endangered species, the Service is proposing to respond to Plum Creek’s request and determine if addition of the Columbia River distinct population segment of bull trout to the permit is warranted. The purpose of this notice is to seek public comment on the Service’s proposal to add bull trout to Plum Creek’s permit.

Implementation Agreement Provisions

The Implementation Agreement is a legal document describing the roles and responsibilities of the Service and Plum Creek during the permit period. Under the Implementation Agreement, plan species are those vertebrate species dependent on the various habitat types analyzed in the Habitat Conservation Plan. In the Plum Creek Habitat Conservation Plan, bull trout are a plan species. The Implementation Agreement specifies that should any of the plan species that were unlisted at the time of permit issuance subsequently become listed under the Act, Plum Creek may request a permit amendment to have that species added to their permit. Plum Creek received assurances that, absent extraordinary circumstances, plan species would be added to the permit without requiring additional mitigation from Plum Creek if the Service determined that such action would not appreciably reduce the likelihood of the survival and recovery of the affected species, or any other species, in the wild and that adding the species to the permit would be consistent with the Service’s other responsibilities. Absent extraordinary circumstances, plan species would be added to the permit without requiring additional mitigation from Plum Creek. Extraordinary circumstances are defined in the Implementation Agreement as a substantial and material adverse change in the status of the species.

To determine whether adding bull trout to Plum Creek’s permit would appreciably reduce the likelihood of the survival and recovery of bull trout or
