The petition to intervene was filed in response to a notice of a proposed determination by the NRC staff that the issuance of a license amendment to the Northeast Nuclear Energy Company for the Millstone Nuclear Power Station, Unit No. 3 would involve no significant hazards considerations. The amendment would eliminate the requirement to have the recirculation spray system directly inject into the reactor coolant system following a design basis accident. The notice was published in the **Federal Register** at 63 Fed. Reg. 14482, 14487 (March 25, 1998).

[Docket No. 50-423]

Northeast Nuclear Energy Company; Notice of Withdrawal of Application for Amendment to Facility Operating License

By letter dated October 15, 1997, as supplemented by letter dated December 17, 1997, Northeast Nuclear Energy Company (NNECO) proposed to amend the Millstone Nuclear Power Station, Unit 3, Operating License No. NPF-49. The proposed amendment would have revised Technical Specification 3/4.4.3, "Pressurizer," to replace the pressurizer maximum water inventory requirement with a pressurizer maximum indicated level requirement. The proposed amendment would have also made editorial changes and modifications to the associated Bases section.

Subsequently, by letter dated April 7, 1998, NNECO superseded its original amendment request with a new request. Therefore, the Commission has approved the withdrawal of NNECO's October 15, 1997, application, as supplemented December 17, 1997, for proposed amendment.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on December 3, 1997 (62 FR 63979).

For further details with respect to this action, see the application for amendment dated October 15, 1997, as supplemented December 17, 1997, and NNECO's letter dated April 7, 1998, which superseded the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, Connecticut, and at the Waterford Library, ATTN: Vince Juliano, 49 Rope Ferry Road, Waterford, Connecticut.

Dated at Rockville, Maryland, this 27th day of April 1998.

For the Nuclear Regulatory Commission.
