

antidumping finding administrative review (48 FR 51801, November 14, 1983). These requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review. This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with sections 751(a)(1) and 777 (i)(1) of the Act.

Dated: April 30, 1998.

Robert S. LaRussa,

Assistant Secretary for Import Administration.

FOR FURTHER INFORMATION CONTACT: Richard Leard, Senior Fishery Biologist; telephone: 813-228-2815.

SUPPLEMENTARY INFORMATION: The Panels will be convened to develop alternatives for the overfishing criteria as required by the Sustainable Fisheries Act. Separate criteria will be considered for each of the stocks or stock-complexes managed under the Council's existing Fishery Management Plans (FMP) for shrimp, stone crab, and spiny lobster (Crustacean SAP), and for migratory coastal pelagics, reef fish, and red drum (Finfish SAP).

The Panels will develop proxies for expressing maximum sustainable yield and optimum yield in terms of

spawning potential ratio, spawning stock biomass per recruit, or other credible analyses as appropriate for the stocks or stock complexes of each FMP. The Panels will also develop alternatives for rebuilding periods for stocks that have been classified as overfished by NMFS. The Panels may suggest modifications to the framework procedures for specifying acceptable biological catch and total allowable catch where appropriate. Each panel will develop a report to the Council setting forth their recommendations.

Although other issues not contained in this agenda may come before the Panels for discussion, in accordance with the Magnuson-Stevens Fishery Conservation Act, those issues may not be the subject of formal action during these meetings.
