SUPPLEMENTARY INFORMATION:

I. Abstract

The Contact Facilitation Service (CFS) is designed to put producers together

with exporters. Many U.S. firms have never exported because of a fear of the risks involved in exporting and a lack of knowledge of the international marketplace. New-to-export firms need the assistance of firms offering export trade services. One of the purposes of the Export Trading Company (ETC) Act of 1982 is to increase United States exports of goods and services by encouraging more efficient provision of export trade services to U.S. producers and suppliers. Section 104 of the Act directs Commerce to provide a service to facilitate contact between producers of exportable goods and services and firms offering export trade services.

The International Trade Administration (ITA) maintains a database for U.S. manufacturers, export trading and management companies, wholesalers/distributors, and international service firms. The CFS is designed to help promote exports and enable U.S. producers to locate ETCs and export services providers. Companies registered in the database are also listed in annual editions of The Export Yellow Pages which are distributed throughout the United States and worldwide. Without the information collected by the form, the CFS and The Export Yellow Pages would be unreliable and ineffective, because users of this kind of information need the current information about the listed companies.

II. Method of Collection

Form ITA-4094P is sent by request to U.S. firms.
