The Coast Guard will consider all comments received during the comment period.

The Coast Guard may schedule a public meeting depending on input received in response to this notice. You may request a public meeting by submitting a request to the address under **ADDRESSES**. The request should include the reasons why a meeting would be beneficial. If the Coast Guard determines that a public meeting should be held, it will hold the meeting at a time and place announced by a later notice in the **Federal Register**.

Background and Purpose

On February 4, 1998, the Coast Guard published a notice requesting comments in the **Federal Register** (63 FR 5767) to announce it was considering development of alternate tonnage thresholds for certain vessels based on the measurement system established under the International Convention on Tonnage Measurement of Ships, 1969. Existing tonnage thresholds in domestic laws and regulations are based on the U.S. regulatory measurement system. Establishing alternate convention tonnages as an option for the application of domestic regulations may result in the building of safer, more efficient vessels and may enable designers and operators of U.S. vessels to be more competitive in the international market. The Coast Guard asked for comments on the issues and questions listed in the notice. Due to the special need for public comment on this issue and requests for a comment period extension from the public, the Coast Guard is extending the comment period to October 15, 1998.

Dated: May 8, 1998.

Cable Compulsory Licenses: Application of the 3.75% Rate**AGENCY:** Copyright Office, Library of Congress.**ACTION:** Proposed amendments and policy statement.

SUMMARY: On April 30, 1997, the Copyright Office published an amendment to its rules to allow a cable system to calculate its copyright liability for carriage of distant signals on a partially permitted/partially non-permitted basis where applicable. Under the new rule, a cable system will apply the current base rates and the syndicated exclusivity surcharge, where applicable, to those subscribers in communities where the signal would have been permitted on or before June 24, 1981, and the 3.75% rate to those subscribers in communities where the signal would not have been permitted before that date.
