#### National Toxicology Program; Availability of the Report on Carcinogens, Eighth Edition

##### Background

The National Toxicology Program (NTP) announces the availability of the Report on Carcinogens, Eighth Edition.

The Report on Carcinogens (RoC) is a Congressionally-mandated listing of known human carcinogens and reasonably anticipated human carcinogens and its preparation is delegated to the National Toxicology Program by the Secretary, Department of Health and Human Services (HHS). Section 301(b)(4) of the Public Health Service Act, as amended, provides that the Secretary, (HHS), shall publish a report which contains a list of all substances (1) which either are known to be human carcinogens or may reasonably be anticipated to be human carcinogens; and (2) to which a significant number of persons residing in the United States (US) are exposed. The law also states that the reports should provide available information on the nature of exposures, the estimated number of persons exposed and the extent to which the implementation of Federal regulations decreases the risk to public health from exposure to these chemicals.

The new entries for the 8th RoC have undergone a multiphased peer review process involving two Federal scientific review groups and one non-government, scientific peer review body (a subcommittee of the NTP Board of Scientific Counselors) which met in an open, public meeting that included a public comment session. All data relevant to the criteria for inclusion of candidate agents, substances or mixtures in the RoC have been evaluated by the three scientific review committees.

In the 8th RoC, the NTP is adding 14 agents, substances or mixtures to the existing list. In addition, thiotepa, which is currently listed in previous Reports on Carcinogens as reasonably anticipated to be a human carcinogen is moved to the known human carcinogen list. These agents, substances or mixtures are provided in the following table with their Chemical Abstracts Services (CAS) Registry numbers and listing.

Hard copies of the 8th RoC, or the 8th RoC Summary (which contains the same

information that is in the full Report with the exception of specific information on regulations promulgated by regulatory health agencies) can be obtained by contacting the NIEHS Environmental Health Information Service, ATTN: Order Processing, P.O. Box 12510, Research Triangle Park, NC 27709-2510, fax number (919) 541-0763, email: [ehis@niehs.nih.gov](mailto:ehis@niehs.nih.gov). The 8th RoC Summary is also available on the internet and can be accessed from the NIEHS Environmental Health Information Service Home Page at: <http://ehis.niehs.nih.gov/> or from the NTP Home Page at: <http://ntp-server.niehs.nih.gov/>.

Questions or comments concerning the 8th RoC should be directed to: Dr. C.W. Jameson, National Toxicology Program, Report on Carcinogens, MD EC-14, P.O. Box 12233, Research Triangle Park, NC 27709; phone: (919) 541-4096, fax: (919) 541-2242, email: [jameson@niehs.nih.gov](mailto:jameson@niehs.nih.gov).
