SUPPLEMENTARY INFORMATION: Title: National Appeals Division Customer Service Survey

OMB Number. Not yet designated.

Type of Request: Approval of new information collection.

Abstract: Executive Order 12862 requires Federal agencies to identify the customers who are, or should be served by the Agency and survey those customers to determine the kind and quality of services they want and their level of satisfaction with existing services. Agencies will then use the results of the survey to establish customer service standards.

The National Appeals Division (NAD) of the U.S. Department of Agriculture was established by the Secretary of Agriculture on October 20, 1994, by Secretary's Memorandum 1010-1, pursuant to the Federal Crop Insurance Reform and Department of Agriculture Reorganization Act of 1994 (Pub. L. 103-354, section 271 et seq. (October 13, 1994)). The Act consolidated the appellate functions and staffs of several

USDA agencies to provide for independent hearings and reviews of adverse agency decisions. NAD is responsible for all administrative appeals arising from program activities of assigned Agencies, as well as such other administrative appeals arising from decisions of agencies and offices of USDA as may be assigned by the Secretary. NAD appeals involve program decisions of the Farm Service Agency, Risk Management Agency, Natural Resources Conservation Service, Rural Business-Cooperative Service, Rural Housing Service, and Rural Utilities Service.

Need for the Information: The information collection in this request is essential for NAD to comply with the requirement of Executive Order 12862 to set customer service standards. The information collected is used only by authorized representatives of the USDA.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.25 hours per response.

Respondents: The primary respondents will be individuals and/or households who are participants in Farm Service Agency and Rural Housing Service programs. A small percentage of respondents may be businesses, institutions or state and local governments.

Estimated Total Annual Burden on Respondents: 52.5.

Copies of this information collection can be obtained from Robert J. Day, Jr., National Appeals Division at (703) 305-2538.

SUPPLEMENTARY INFORMATION:

I. Abstract

The BE-47 Annual Survey of Construction, Engineering, Architectural, and Mining Services Provided by U.S. Firms to Unaffiliated Foreign Persons will obtain data on U.S. sales to unaffiliated foreign persons of construction, engineering, architectural, and mining services. The information gathered is needed, among other purposes, to support U.S. trade policy initiatives and to compile the U.S. international transactions, input-output, and national income and product accounts. BEA is proposing to drop the requirement to report data on Form BE-47 by individual project and instead require reporting only by country. This proposed change will bring the format and design of the survey generally more into line with those of other surveys of international services transactions that BEA conducts. In addition, BEA is proposing a change in the way transactions are coded by type of service. Currently, eight codes are used to classify the data reported on Form BE-47 by type of service. These codes are based on the 1987 U.S. Standard Industrial Classification (SIC) system. BEA proposes to collapse these eight codes into three broad groupings, which will be based on the new North American Industry Classification System that is replacing the SIC. These proposed changes will result in a small reduction in the estimated time per response.

II. Method of Collection

The survey will be sent each year to potential respondents in January and responses are due by March 31. A U.S.
