

The Committee Chairperson and Vice Chairperson shall be elected by the Committee from among its members.

Terms will expire for the current members of the Committee in June 1998. We are soliciting nominations from interested organizations and individuals to replace members on the Committee. An organization may nominate individuals from within or outside its membership. The Secretary will select members to obtain the broadest possible representation on the Committee, in accordance with the Federal Advisory Committee Act (Pub. L. 92-463) and U.S. Department of Agriculture (USDA) Regulation 1041-1. Equal opportunity practices, in line with the USDA policies, will be followed in all appointments to the Committee. To ensure that the recommendations of the Committee have taken into account the needs of the diverse groups served by the Department, membership should include, to the extent practicable, individuals with demonstrated ability to represent minorities, women, and persons with disabilities.

Done in Washington, DC, this 8th day of May 1998.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The BE-47 Annual Survey of Construction, Engineering, Architectural, and Mining Services Provided by U.S. Firms to Unaffiliated Foreign Persons will obtain data on U.S. sales to unaffiliated foreign persons of construction, engineering, architectural, and mining services. The information gathered is needed, among other purposes, to support U.S. trade policy initiatives and to compile the U.S. international transactions, input-output, and national income and product accounts. BEA is proposing to drop the requirement to report data on Form BE-47 by individual project and instead require reporting only by country. This proposed change will bring the format and design of the survey generally more into line with those of other surveys of international services transactions that BEA conducts. In addition, BEA is proposing a change in the way transactions are coded by type of service. Currently, eight codes are used to classify the data reported on Form BE-47 by type of service. These codes are based on the 1987 U.S. Standard Industrial Classification (SIC) system. BEA proposes to collapse these eight codes into three broad groupings, which will be based on the new North American Industry Classification System that is replacing the SIC. These proposed changes will result in a small reduction in the estimated time per response.

##### II. Method of Collection

The survey will be sent each year to potential respondents in January and responses are due by March 31. A U.S.
