#### Georgia Power Company; Notice of Availability of Environmental Assessment

May 11, 1998.

A environmental assessment (EA) is available for public review. The EA was prepared for an application filed by Georgia Power Company, licensee for the Sinclair Hydroelectric Project. In its application, the licensee requests Commission approval to grant a permit to a private developer to construct a small, commercial marina on Lake Sinclair, the project reservoir. The proposed marina would be located near the confluence of Sandy Run Creek and the Oconee River in Hancock County, Georgia.

Based on the environmental analyses presented in the EA, the Commission's staff finds that, with the developer's proposed mitigative measures, the marina development would not be a major federal action significantly affecting the quality of the human environment.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA may be obtained by calling the Commission's public reference room at (202) 208-1371.
