[Project No. 5637-003]

Pancheri Inc.; Availability of Environmental Assessment

May 14, 1998.

An environmental assessment (EA) is available for public review. The EA is for an application to amend the Pancheri Hydroelectric Project. The application is to rehabilitate the existing project by upgrading the existing pipe water conveyance system and building a new powerhouse. The EA finds that approval of the application would not

constitute a major federal action significantly affecting the quality of the human environment. The Pancheri Hydroelectric Project is located on the Sawmill Creek in Butte County, Idaho.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA can be viewed at the Commission's Public Reference Room, Room 2A, 888 First Street, N.E., Washington, D.C. 20426. Copies can also be obtained by calling the project manager listed below. For further information, please contact the project manager, Jean A. Potvin, at (202) 219-0022.
