SUPPLEMENTARY INFORMATION:

I. Abstract

These data are required to carry out provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 USC 1801 *et seq.*), as amended. Marine recreational anglers are surveyed for catch and effort data, fish biology data, and angler socioeconomic characteristics.

II. Method of Collection

A random-digit-dialing telephone household survey collects data on the number of fishing trips and on the proportion of marine fishing households by county of the survey area. On-site intercept interviews of marine recreational anglers collect data on the catch per trip by species.

III. Data

OMB Number: 0648-0052.

Form Numbers: None.

Type of Review: Regular submission.

Affected Public: Individuals (U.S.

marine recreational anglers).

Estimated Number of Respondents: 428,000.

Estimated Time Per Response:

Approximately 7-8 minutes per survey of fishermen or fishing households and 1 minute for contacts of non-fishing households.

Estimated Total Annual Burden Hours: 16,459.

Estimated Total Annual Cost to Public: \$0 (no capital expenditures required).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
