SUPPLEMENTARY INFORMATION:

I. Background

On November 21, 1997, President Clinton signed into law the Modernization Act (Pub. L. 105-115). Section 111 of the Modernization Act (21 U.S.C. 355A(b)) requires FDA, after consultation with experts in pediatric research, to develop, prioritize, and publish a list of approved drugs for which additional pediatric information may produce health benefits in the pediatric population. Inclusion of a drug on the list does not necessarily mean that the drug is entitled to pediatric exclusivity.

FDA developed a draft list in consultation with experts in pediatric research, trade organizations, and other interested persons, and made the draft list available for public comment (see 63 FR 12815, March 16, 1998). After consideration of comments on the draft list, FDA is publishing the list of approved drugs for which additional pediatric information may produce health benefits in the pediatric population and announcing its availability through this notice.
