

requirements of § 194.22. After EPA reviews these documents for adequacy, EPA will conduct an inspection of a DOE audit of the site to determine whether the requirements set out in these documents are being adequately implemented in accordance with Conditions 2 and 3 of EPA's WIPP certification decision (Criteria for the Certification and Recertification of the Waste Isolation Pilot Plant's Compliance With the 40 CFR Part 191 Disposal Regulations: Certification Decision). Section 194.8 of the WIPP Compliance Criteria (as amended by the final certification decision) provides the public at least 30 days to comment on the documents placed in EPA's docket relevant to the site approval process.

If EPA determines that the provisions in the documents are adequately implemented, EPA will notify DOE by letter and place the letter in the official Air Docket in Washington DC, and in the informational docket locations in New Mexico. A positive approval letter will allow DOE to begin shipping TRU waste from RFETS. EPA will not make a determination of compliance before the inspection or before the 30-day comment period has closed.

Information on EPA's radioactive waste disposal standards (40 CFR Part 191), the compliance criteria (40 CFR Part 194), and EPA's certification decision is filed in the official EPA Air Docket, Dockets No. R-89-01, A-92-56, and A-93-02, respectively, and is available for review in Washington DC, and at the three EPA WIPP informational docket locations in New Mexico. The dockets in New Mexico contain only major items from the official Air Docket in Washington, DC, plus those documents added to the official Air Docket since the October 1992 enactment of the WIPP LWA.
