

occupational exposures to ETS in these sectors.

Public Attendance

Interested persons are invited to attend the ventilation workshop. The ACGIH has indicated that 50 seats will be available for observers. Because of the limited amount of seating available, space will be assigned on a first come, first served basis. However, if there are more requests to attend than space available, the ACGIH will give preference to technical experts. No organization will be permitted more than one observer unless there is space available after all admissions requests are filled. All individuals who wish to attend must contact Alexis Callender, American Conference of Governmental Industrial Hygienists, no later than May 28, 1998 to register for this workshop. Admittance to the workshop will be limited to those duly registered.

Individuals with disabilities wishing to attend should contact Alexis Callender, no later than May 28, 1998 to obtain appropriate accommodations.

The Workshop

The panel will consist of ventilation engineers experienced in various aspects of ventilation engineering controls currently used in general industry, and facility management representatives from the restaurant, bar, and gambling establishments. The panel discussions will be chaired by a member of the ACGIH's Committee on Industrial Ventilation. Panel participants were chosen for their technical expertise and experience in this area. This workshop is technical in nature. The public is invited to observe the proceedings, but participation in the discussion is limited to panel members.

Workshop Agenda

On the first day, each panelist will deliver a 15 minute presentation. These presentations will cover various topics, including historical perspectives of ACGIH's Industrial Ventilation Guide; local source capture vs. general dilution ventilation; make up air (e.g., supply air islands); ventilation performance monitoring; displacement ventilation systems; particulate and gas phase removal; and current practice for design, operations, and maintenance of Heating Ventilation, and Air-Conditioning (HVAC) systems in gaming, restaurant, and beverage (bars) facilities. On the second day of the workshop, working groups will be formed from the panel to explore the technological and economic feasibility of applying current prudent practice for the application of ventilation engineering controls to the

hospitality sector. The third day will involve the summarization of the work completed by the working groups and discussion of how ACGIH plans to incorporate the information into a ventilation guide for the hospitality industry.

Authority and Signature

This document was prepared under the direction of Charles N. Jeffress, Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, DC, 20210. It is issued pursuant to section 6(b) of the Occupational Safety and Health Act of 1970 (84 Stat. 1594, 29 U.S.C. 655).

Signed at Washington, D.C. this 19th day of May 1998.

Charles N. Jeffress,

Assistant Secretary of Labor.

BILLING CODE 4510-26-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency proposes to request extension of currently approved information collections used by researchers for submitting requests for copies of pages of Ship Passenger Arrival Records, Federal population census schedules through the 1920 census, and Eastern Cherokee Applications of the U.S. Court of Claims, 1906-1909, that are in the National Archives of the United States. The public is invited to comment on the proposed information collections pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be received on or before July 27, 1998 to be assured of consideration.

ADDRESSES: Comments should be sent to: Paperwork Reduction Act Comments (NHP), Room 3200, National Archives and Records Administration, 8601 Adelphi Rd, College Park, MD 20740-6001; or faxed to 301-713-6913; or electronically mailed to tamee.fechhelm@arch2.nara.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information collections and supporting statements

should be directed to Tamee Fechhelm at telephone number 301-713-6730, ext. 226, or fax number 301-713-6913.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Public Law 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. The comments and suggestions should address one or more of the following points: (a) whether the proposed information collections are necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collections; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology. The comments that are submitted will be summarized and included in the NARA request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record. In this notice, NARA is soliciting comments concerning the following information collections:

Title: National Archives Order for Copies of Ship Passenger Arrival Records, National Archives Order for Copies of Census Records, and National Archives Order for Copies of Eastern Cherokee Applications.

OMB number: 3095-0027.

Agency form numbers: NATF Forms 81, 82, and 83.

Type of review: Regular.

Affected public: Individuals who wish to order copies of Ship Passenger Arrival Records, Federal population census schedules through the 1920 census, and Eastern Cherokee Applications of the U.S. Court of Claims, 1906-1909, in the National Archives of the United States.

Estimated number of respondents: 12,000.

Estimated time per response: 10 minutes.

Frequency of response: On occasion (when respondent wishes to search for or order copies of Ship Passenger Arrival Records, Federal population census schedules through the 1920 census, and Eastern Cherokee Applications from the U.S. Court of Claims, 1906-1909).

Estimated total annual burden hours: 2,000.

Abstract: The NATF form 81 will be used by researchers to request that NARA search for and make copies of pages from passenger arrival lists in the custody of the National Archives. The

NATF form 82 will be used by researchers to request that NARA search for and make copies of pages of Federal population census schedules through the 1920 census. The NATF form 83 will be used by researchers to request that NARA search for and make copies of Eastern Cherokee applications of the U.S. Court of Claims, 1906-1909. Submission of requests on a form is necessary to handle in a timely fashion the volume of requests received for these records (approximately 10,000 per year for the NATF 81, approximately 1,400 per year for the NATF 82, and approximately 600 per year for the NATF 83) and the need to obtain specific information from the researcher to search for the records sought. The form will be printed on carbonless paper as a multi-part form to allow the researcher to retain a copy of his request and NARA to respond to the researcher on the results of the search or to bill for copies if the researcher wishes to order the copies. As a convenience, the form will allow researchers to provide credit card information to authorize billing and expedited mailing of the copies. NARA is not able at present to accept electronic submission of requests; however, we intend to address security of financial information and other issues as we continue our efforts to increase electronic access to NARA and its holdings.

Dated: May 21, 1998.

L. Reynolds Cahoon,

Assistant Archivist for Human Resources and Information Services.

**NATIONAL CREDIT UNION
ADMINISTRATION**

Sunshine Act Meeting; Notice of Meetings

TIME AND DATE: 10:00 a.m., Thursday, May 28, 1998.

PLACE: Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

STATUS: Open.

MATTERS TO BE CONSIDERED:

1. Requests from Two (2) Federal Credit Unions to Convert to Community Charters.

2. Request for a Corporate Federal Credit Union for a Field of Membership Amendment.

RECESS: 11:00 a.m.

TIME AND DATE: 11:30 a.m., Thursday, May 28, 1998.

PLACE: Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Administrative Action under Part 704 of NCUA's Rules and Regulations. Closed pursuant to exemption (8).

2. Corporate Credit Union Risk Rating system (CCURRS). Closed pursuant to exemption (8).

3. Administrative Action under Section 206 of the Federal Credit Union Act. Closed pursuant to exemptions (4), (5), (6), (7) and (8).

4. Six (6) Personnel Actions. Closed pursuant to exemptions (2) and (6).

5. Human Resources Delegations of Authority. Closed pursuant to exemptions (2) and (6).

FOR FURTHER INFORMATION CONTACT:

Becky Baker, Secretary of the Board, Telephone (703) 518-6304.

Becky Baker,

Secretary of the Board.

**NUCLEAR REGULATORY
COMMISSION**

[Docket No. 50-220]

**Niagara Mohawk Power Corporation;
Notice of Consideration of Issuance of
Amendment to Facility Operating
License, Proposed No Significant
Hazards Consideration Determination,
and Opportunity for a Hearing;
Correction**

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; correction.

SUMMARY: This document corrects a notice appearing in the **Federal Register** on May 19, 1998 (63 FR 27601), that would change Technical Specifications 3/4.6.2, "Protective Instrumentation," to reflect modifications to the initiation instrumentation for the Control Room Air Treatment System. This action is necessary to correct an erroneous date.

FOR FURTHER INFORMATION CONTACT: David L. Meyer, Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, telephone (301) 415-7162.

SUPPLEMENTARY INFORMATION: On page 27604, in the first column, in the third complete paragraph, on the first line, the date "June 1, 1998," should be corrected to read "June 18, 1998."

Dated at Rockville, Maryland, this 20th day of May 1998.

For the Nuclear Regulatory Commission.

David L. Meyer,

Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration.

**NUCLEAR REGULATORY
COMMISSION**

[Docket Nos. 50-277 and 50-278]

**PECO Energy Company, Peach Bottom
Atomic Power Station (Units 2 & 3);
Confirmatory Order Modifying
Licenses; Effective Immediately**

I

PECO Energy Company, (PECO or the Licensee) is the holder of Facility Operating Licenses Nos. DPR-44 and DPR-56, which authorize operation of Peach Bottom Atomic Power Station, Units 2 and 3, located in York County, Pennsylvania.

II

The staff of the U.S. Nuclear Regulatory Commission (NRC) has been concerned that Thermo-Lag 330-1 fire barrier systems installed by licensees may not provide the level of fire endurance intended and that licensees that use Thermo-Lag 330-1 fire barriers may not be meeting regulatory requirements. During the 1992 to 1994 time frame, the NRC staff issued Generic Letter (GL) 92-08, "Thermo-Lag 330-1 Fire Barriers" and subsequent requests for additional information that requested licensees to submit plans and schedules for resolving the Thermo-Lag issue. The NRC staff has obtained and reviewed all licensees' corrective plans and implementation schedules. The staff is concerned that some licensees may not be making adequate progress toward resolving the plant-specific issues, and that some implementation schedules may be either too tenuous or too protracted. For example, several licensees informed the NRC staff that their completion dates had slipped by 6 months to as much as 3 years. For plants that have completion action scheduled beyond 1997, the NRC staff has met with the licensees to discuss the progress of the licensees' corrective actions and the extent of licensee management attention regarding completion of Thermo-Lag corrective actions.

PECO Energy Company was one of the licensees with which the NRC staff held meetings. At these meetings, the NRC staff reviewed with PECO Energy Company the schedule of Thermo-Lag
