

Needs and Uses: The information will be used by the Commission to determine if the applicant is legally, technically and financially qualified to participate in an FCC auction. The rules and requirements are designed to ensure that the competitive bidding process is limited to serious qualified applicants and deter possible abuses of the bidding and licensing process. The information will also be used to ensure that licensees that acquire their licenses through competitive bidding are not unjustly enriched by the premature transfer of their licenses. The Commission plans to use this form for all upcoming auctions.
