

the core model which contains all computational algorithms, and a reporting utility for viewing and summarizing modeled emissions estimates. The model has been designed to allow the user a high degree of flexibility. As such, the model will:

- Calculate and report emissions in total for the United States, and for individual states and counties;
- Calculate emissions for a variety of time periods (e.g., an entire year, any particular month, any combination of months, or daily weekday or weekend day);
- Report emissions of six pollutants: hydrocarbons (HC), carbon monoxide (CO), NO_x, sulfur oxides (SO_x), and PM. The model will report both exhaust and non-exhaust HC emissions, the latter of which includes crankcase, diurnal, refueling, etc;
- Estimate current and future year emissions in a specified geographic area. In estimating future year emissions, the model includes growth and scrappage and can accommodate a variety of control program options; and
- View model results in different formats such as an Emission Pre-Processor System 2 (EPS-2) input file, spreadsheet, and preformatted reports.

The public workshop being announced today provides a valuable opportunity for EPA to receive assistance in developing the final NONROAD model through review and comment by all interested users. The workshop will focus on all aspects of the model including user convenience, data inputs and modeling assumptions, computational structure, and reporting options and formats. Presentations on each subject will be followed by a short discussion/question and answer period, and there should be some time left at the end of the day for more general open discussion of the material that has been presented. A detailed draft agenda for the workshop will be posted on the EPA OMS web site or may be obtained from the EPA contact person (see **FOR FURTHER INFORMATION CONTACT**).

Availability of Technical Reports and NONROAD

EPA anticipates the workshop will be highly interactive. To facilitate this goal, all participants are encouraged to review the draft technical reports on data inputs and assumptions, as well as the draft NONROAD model and accompanying user's guide. These documents and the model are posted on the EPA OMS web site or are otherwise

available on CD ROM from the EPA contact person (see **FOR FURTHER INFORMATION CONTACT**). Please visit this site often to check for additional information or model documentation which may be posted between now and the workshop date.

Comment Period

The Agency is providing a 60-day public comment period on the draft model and associated documents. This period should be adequate for interested parties to thoroughly review the available information, and is consistent with the guidelines for public review of EPA emission models the Mobile Sources Technical Review Subcommittee of the Clean Air Act Advisory Committee established under the Federal Advisory Committee Act. The comment period will be initiated at the time the draft NONROAD model is posted on the EPA OMS web site, which EPA projects to be on or around June 15, 1998.

Model Demonstration

The Agency will hold a hands-on demonstration of the model on the same day, at the same location immediately after the public workshop. The facility is capable of seating approximately 20 people at individual personal computers. This demonstration will be held on a first come, first serve basis. Please contact EPA via the NONROAD E-mail box or the EPA contact person (see **FOR FURTHER INFORMATION CONTACT**).

Additional Information

To the extent possible, EPA will post material at the EPA OMS web site, as described under **FOR FURTHER INFORMATION CONTACT**, in advance of the workshop. Those planning to attend, and those interested in following the progress of workshop planning more closely, should periodically visit the EPA OMS web site.

Dated: May 28, 1998.

Donald E. Zinger,

Acting Director, Office of Mobile Sources.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[OPP-00539; FRL-5795-5]

State FIFRA Issues Research and Evaluation Group (SFIREG) Water Quality and Pesticide Disposal Working Committee; Open Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The State FIFRA Issues Research and Evaluation Group (SFIREG) Water Quality and Pesticide Disposal Working Committee will hold a 2-day meeting, June 8 and 9, 1998. This notice announces the location and times for the meeting and sets forth the tentative agenda topics. The meetings are open to the public.

DATES: The SFIREG Working Committee on Water Quality and Pesticide Disposal will meet on Monday, June 8, 1998, from 8:30 a.m. to 4 p.m. and Tuesday, June 9, 1998, from 8:30 a.m. to 12 noon.

ADDRESSES: The meeting will be held at: The National Airport Doubletree Hotel, 300 Army Navy Drive, Arlington-Crystal City, VA.

FOR FURTHER INFORMATION CONTACT: By mail: Elaine Y. Lyon, Field and External Affairs Division, Office of Pesticide Programs (7506C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: 1921 Jefferson Davis Highway, Arlington-Crystal City, VA 22202, CM-II (703) 305-5306, (703) 308-1850 (fax); e-mail: lyon.elaine@epa.gov.

SUPPLEMENTARY INFORMATION: The tentative agenda of the SFIREG Working Committee on Water Quality and Pesticide Disposal includes the following:

1. Update on the State Management Plan.
2. Status on triazine special review.
3. Surface water issues.
4. Aquatic herbicide issues.
5. Follow-up on Total Maximum Daily Loads.
6. Drinking water levels of concern.
7. FQPA - Tolerance assessment impacts from water residues.
8. Update on The Ecological Committee on FIFRA Risk Assessment Methods.
9. Update from the Office of Pesticide Programs.
10. Update from the Office of Enforcement and Compliance Assurance.
11. Overview of GAO Hazardous Waste Report.
12. Reports from Committee meetings.
13. Other topics as appropriate.

List of Subjects

Environmental protection.

Dated: June 1, 1998.

Jay Ellenbeger,

Director, Field and External Affairs Division,
Office of Pesticide Programs.

BILLING CODE 6560-50-F

**FEDERAL COMMUNICATIONS
COMMISSION**

**Notice of Public Information
Collections being Reviewed by the
Federal Communications Commission**

May 27, 1998.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments [insert date 60 days from publication in Federal Register].

ADDRESSES: Direct all comments to Judy Boley, Federal Communications Commissions, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Judy Boley at 202-418-0214 or via internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:
OMB Approval Number: 3060-0139.

Title: Application for Antenna Structure Registration.

Form No.: FCC 854.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals, Businesses or other for-profit; Non-profit institutions; State, Local or Tribal Government.

Number of Respondents: 4,500.

Estimated Time Per Response: 30 minutes.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 2,250 hours.

Needs and Uses: Section 303(q) of the Communications Act, as amended, authorizes the Commission to require the painting and/or illumination of radio towers in cases where there is a reasonable possibility that an antenna structure may cause a hazard to air navigation. The data collected is required by the Communications Act of 1934, as amended; FCC Rules Section 1.61(a), 17.4, 21.11(g), 25.113(c), 73.3533(c), 74.551(c), 74.651(d), 74.1251(d), 78.109(c), 95.83(a)(3), 97.15(d).

This FCC form is to be used for the purpose of registering structures used for wire or radio communication services within the United States, or to make changes to an existing registered structure, or to notify the Commission of the dismantlement of a structure. The Commission staff will evaluate the antenna data submitted by the tower owner and determine if Part 17 rule requirements are met and if any obstruction painting and/or lighting will be necessary. The tower owner will receive notification that the Commission has registered the structure, modification or dismantlement on FCC Form 854R, Antenna Structure Registration. Owners of new and modified towers must notify the Commission within 24 hours of construction completion and/or disposition of structure, using a portion of the FCC Form 854R which is detachable.

The Commission is in the final phase of completing the initial two year registration period for the revised antenna structure registration process. The form's data collection remains the same, however, we estimate a significant decrease (adjustment) in the number of total respondents from 43,000 to 4,500 and a decrease in the total annual burden from 21,500 hours to 2,250 hours as a result of a re-evaluation of receipts due to the program change implemented two years ago.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.

BILLING CODE 6712-01-F

**FEDERAL COMMUNICATIONS
COMMISSION**

**Notice of Public Information Collection
Submitted to OMB for Review and
Approval**

May 22, 1998.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated information techniques or other forms of information technology.

DATES: Written comments should be submitted on or before July 6, 1998. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at 202-418-0214 or via internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:
OMB Control Number: 3060-0316.
