**SUPPLEMENTARY INFORMATION:**

*Title:* Designation of Agents, Motor Carriers, and Brokers.

*OMB Number:* 2125-0567.

**Background**

The Secretary of Transportation is authorized to register for-hire motor carriers of regulated commodities under the provisions of 49 U.S.C. 13902, surface freight forwarders under the provisions of 49 U.S.C. 13903, and property brokers under the provisions of 49 U.S.C. 13904. These persons may conduct transportation services only if they are registered pursuant to 49 U.S.C. 13901. The Secretary has delegated authority pertaining to these registrations to the FHWA. Registered motor carriers, brokers, and freight forwarders must designate (1) an agent on whom service of notices in proceedings before the Secretary may be made (49 U.S.C. 13303); and (2) for every state in which they operate, agents on whom process issued by a court may be served in actions brought against the registered transportation entity (49 U.S.C. 13304). Regulations governing the designation of process agents are found at 49 CFR part 366. This designation is filed with the FHWA on Form BOC-3.

*Respondents:* Motor carriers, freight forwarders, and brokers.

*Estimated Average Burden per Response:* The estimated average burden per response for Form BOC-3 is 10 minutes.

*Estimated Total Annual Burden:* The estimated total annual burden is 3,500 hours for Form BOC-3 based on 21,000 filings per year.

*Frequency:* Form BOC-3 must be filed when the transportation entity first registers with the FHWA. Subsequent filings are made only if the motor carrier, broker, or freight forwarder changes process agents.

**Public Comments Invited**

Interested parties are invited to send comments regarding any aspect of this

information collection, including but not limited to: (1) The necessity and utility of the information collection for the proper performance of the functions of the FHWA; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the collected information; and (4) ways to minimize the collection burden without reducing the quality of the collected information.
