

mitigated by the development of a Mitigation Bank, the purchase of 24 nightingale reed-warbler credits from the Mitigation Bank, and other measures specified in the Plan. Alternative 2 entails developing the project as originally permitted by the local government. The impacts to nightingale reed-warblers on site would be greater under this alternative and the protection of 24 nightingale reed-warbler territories and protection and enhancement of an additional 24 nightingale reed-warbler territories would not occur. Under alternative 1, the no action alternative, the Service would not issue an incidental take permit. The area leased would likely revert back to the Commonwealth government. None of the existing nightingale reed-warblers would be lost, at least immediately. After the land reverted back to the Commonwealth, it would then be available for other uses. These uses could have greater impacts to nightingale reed-warblers as a result of subdivision and the subsequent habitat fragmentation. Under the no action alternative, the 24 existing territories would not be preserved in the Mitigation Bank, and habitat protection and enhancement for the establishment of 24 additional territories would not occur.
