Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of an experimental fishing permit.

SUMMARY: This notice announces receipt of an application from John Gauvin, Groundfish Forum, Inc., for an Experimental Fishing Permit (EFP). If awarded, this permit would be used to develop a device for flatfish trawls that may lower halibut bycatch rates without significantly lowering catch rates of target flatfish species. It is intended to promote the objectives of the Fishery Management Plan (FMP) for Groundfish of the Gulf of Alaska.

ADDRESSES: Copies of the EFP application are available by writing to Steven Pennoyer, Administrator, Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802, Attn: Lori Gravel.

FOR FURTHER INFORMATION CONTACT: Susan Salvesson, 907-586-7228.

SUPPLEMENTARY INFORMATION: The FMP and its implementing regulations at 50 CFR part 679.6 authorize issuance of EFPs to allow fishing that would otherwise be prohibited. Procedures for issuing EFPs are contained in the implementing regulations. NMFS received a permit request from the applicant on May 15, 1997, that, if approved, would be used to develop a device for flatfish trawls that may lower halibut bycatch rates without significantly lowering catch rates of target flatfish species.

In accordance with regulations, NMFS has determined that the proposal warrants further consideration and has initiated consultation with the North Pacific Fishery Management Council (Council) by forwarding the application to the Council. The Council will consider the EFP application during its June 10-15, 1998, meeting which will be held at the Grand Aleutian Hotel, Dutch Harbor, Alaska. The applicant has been invited to appear in support of the application if the applicant desires.

A copy of the application is available for review from the NMFS Regional Administrator (see **ADDRESSES**).
