SUPPLEMENTARY INFORMATION:

Description of Information Collection

Title: Smith River National Recreation Area.

OMB Number: 0596-0138.

Expiration Date of Approval: September 30, 1998.

Type of Request: Extension of an existing information collection.

Abstract: Forest Service regulations at 36 CFR Part 292, Subpart G, implement Section 8(d) of the Smith River National

Recreation Area Act of 1990 and set forth procedures by which the Forest Service regulates mineral operations on National Forest System lands within the Smith River National Recreation Area. These regulations supplement existing Forest Service regulations and are intended to ensure that mineral operations are conducted in a manner consistent with the purposes for which the Smith River National Recreation Area was established.

Section 292.63(b) requires an operator to provide information to support valid existing rights in addition to plan of operations information requirements at §§ 228.4 and 228.8. Also, as part of a plan of operations for the Smith River National Recreation Area, § 292.63(c) requires the following information: (1) a copy of the authorization or agreement by which operations are to be conducted when the operator and mining claim owner are different; (2) the hazardous and toxic materials and similar chemical substances to be used during mineral operations; (3) the character and composition of mineral wastes that will be used or generated; (4) how these materials and substances will be disposed; (5) the proposed method or strategy for handling the wastes; and (6) how public health and safety will be maintained. Section 292.65(b) requires that operator wishing to exercise outstanding mineral rights submit an operating plan.

Estimate of Burden: 20 hours.

Type of Respondents: Mineral operators.

Estimate Number of Respondents: 2.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 40.

Comment Is Invited

The agency invites comments on the following: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of

automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Use of Comment

All comments, including name and address when provided, will become a matter of public record. Comments received in response to this notice will be summarized and included in the request for Office of Management and Budget approval.

Dated: June 5, 1998.
