

In determining whether termination of debarment serves the interest of justice and poses no threat to the integrity of the drug approval process, the agency weighs the significance of all favorable and unfavorable factors in light of the remedial, public health-related purposes underlying debarment. Termination of debarment will not be granted unless, weighing all favorable and unfavorable information, there is a high level of assurance that the conduct that formed the basis for the debarment has not recurred and will not recur, and that the individual will not otherwise pose a threat to the integrity of the drug approval process.

The evidence presented to FDA in support of termination shows that, despite the seriousness of the offense for which Dr. Chatterji was debarred, his conduct may have been an aberration, his character and scientific ability remain highly regarded by his professional peers, and that he may serve as a strong advocate for compliance with current good manufacturing practice regulations. For these reasons, the agency finds that termination of Dr. Chatterji's debarment serves the interest of justice and will not pose a threat to the integrity of the drug approval process.

Under section 306(d)(4)(D) of the act, the period of debarment of an individual who qualifies for special termination may be limited to less than permanent but to no less than 1 year. Dr. Chatterji's period of debarment has lasted more than 1 year.

Accordingly, the Deputy Commissioner for Operations, under section 306(d)(4) of the act and under authority delegated to him (21 CFR 5.20), finds that Dr. Dulal C. Chatterji's application for special termination of debarment should be granted, and that the period of debarment should terminate immediately, thereby allowing him to provide services in any capacity to a person with an approved or pending drug product application. The Deputy Commissioner for Operations further finds that because the agency is granting Dr. Chatterji's application, an informal hearing under section 306(d)(4)(C) of the act is unnecessary.

As a result of the foregoing findings, Dr. Dulal C. Chatterji's debarment is terminated effective June 11, 1998 (section 306(d)(4)(C) and (d)(4)(D) of the act).

Dated: June 5, 1998.
