## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-325 and 50-324]

### Licensee; Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment No. 203 to Facility Operating License No. DPR-71 and No. 233 to Facility Operating License No. DPR-62 issued to Carolina Power & Light Company (the licensee), which revised the operating license and Appendices A and B to the operating license for the Brunswick Steam Electric Plant, Units 1 and 2 (BSEP), located in Brunswick County, North Carolina. The amendments are effective as of the date of issuance.

The amendment implements a full conversion of the BSEP Technical Specifications (TS) to a set of TS based upon NUREG-1433, "Standard Technical Specifications General Electric Plants, BWR/4," Revision 1, dated April 1995. The application for

the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for a Hearing in connection with this action was published in the **Federal Register** on January 24, 1997 (62 FR 3719). No request for a hearing or petition for leave to intervene was filed following this notice.

The Commission has prepared an Environmental Assessment related to the action and has determined not to prepare an environmental impact statement. Based upon the environmental assessment, the Commission has concluded that the issuance of the amendment will not have a significant effect on the quality of the human environment (63 FR 29039).

For further details with respect to the action see (1) the application for amendment dated November 1, 1996, as supplemented by letters dated August 8, September 11, September 17, October 13, November 6, December 19, 1997, February 26, March 13, April 24, 1998 and May 22, 1998, (2) Amendment No. 203 to Facility Operating License No. DPR-71 and Amendment No. 233 to Facility Operating License No. DPR-62, (3) the Commission's related Safety Evaluation, and (4) the Commission's Environmental Assessment. All of these items are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street NW., Washington, DC, and at the local public document room located at the University of North Carolina at Wilmington, William Madison Randall Library, 601 S. College Road, Wilmington, North Carolina 28403-3297.

Dated at Rockville, Maryland, this 5th day of June 1998.

For the Nuclear Regulatory Commission.

**David C. Trimble,**

*Project Manager, Project Directorate II-1, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-423]

### In the Matter of Central Maine Power Company, (Millstone Nuclear Power Station, Unit 3) Order Approving Application Regarding the Restructuring of Central Maine Power Company by Establishment of a Holding Company

#### I

Central Maine Power Company (CMP), a 2.5 percent owner of the Millstone Nuclear Power Station, Unit 3 (Millstone Unit 3), one of the 13 other owners of Millstone Unit 3, is a co-holder of Facility Operating License No. NPF-49 issued by the U.S. Nuclear Regulatory Commission (NRC) pursuant to Part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR Part 50) on January 31, 1986. Under this license, Northeast Nuclear Energy Company (NNECO), has the exclusive authority to operate Millstone Unit 3. Millstone Unit 3 is located in New London County, Connecticut.

#### II

By an application dated March 4, 1998, CMP, by and through its counsel, Morgan, Lewis, and Bockius, requested consent pursuant to 10 CFR 50.80 regarding the proposed restructuring of CMP. Under the restructuring, CMP would become a wholly owned subsidiary of a newly created holding company but would continue to hold its 2.5 percent ownership interest in Millstone Unit 3. No direct transfer of the license would occur. NNECO, which is not involved in the proposed transaction, would continue to be the licensed operator for Millstone Unit 3. The holders of CMP common stock would automatically become holders of common stock of the new holding company on a share-for-share basis, according to the application.

Notice of this application for consent was published in the **Federal Register** on April 24, 1998 (63 FR 20434); and an Environmental Assessment and Finding of No Significant Impact was published in the **Federal Register** on May 4, 1998 (63 FR 24576).

Under 10 CFR 50.80, no license shall be transferred, directly or indirectly, through transfer of control of the license unless the Commission shall give its consent in writing. Upon review of the information submitted in the application dated March 4, 1998, the NRC staff has determined that the proposed restructuring of CMP by creation of a holding company will not
