

reference in 14 CFR 71.1 (62 FR 52491; October 8, 1997). The Class E airspace listed in this document will be revised and published in the Order.

The FAA has determined that these proposed regulations only involve an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Proposal

The FAA proposes to amend 14 CFR part 71 by revising the Class E airspace at Unalakleet, AK, due the establishment of a GPS instrument approach to RWY 14. The intended effect of this proposal is to provide adequate controlled airspace for Instrument Flight Rules (IFR) operations at Unalakleet, AK.

The area would be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as an 700/1200 foot transition area are published in paragraph 6005 in FAA Order 7400.9E, *Airspace Designations and Reporting Points*, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1 (62 FR 52491; October 8, 1997). The Class E airspace listed in this document would be revised and published in the Order.

The FAA has determined that these proposed regulations only involve an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1700

Poison Prevention Packaging Requirements; Proposed Exemption of Sucraid

AGENCY: Consumer Product Safety Commission.

ACTION: Proposed rule.

SUMMARY: The Commission is proposing to exempt from its child-resistant packaging requirements the oral prescription drug Sucraid. Sucraid is a new liquid formulation of sacrosidase, a

yeast derived form of the sucrase enzyme, used for the treatment of congenital sucrase-isomaltase deficiency. The Commission proposes this exemption because human experience has shown no evidence of serious toxicity.

DATES: Comments on the proposal should be submitted no later than August 26, 1998.

ADDRESSES: Comments should be mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, or delivered to the Office of the Secretary, Consumer Product Safety Commission, Room 502, 4330 East-West Highway, Bethesda, Maryland 20814-4408, telephone (301) 504-0800. Comments may also be filed by telefacsimile to (301) 504-0127 or by email to cpssc-os@cpssc.gov.

SUPPLEMENTARY INFORMATION:

A. Background

The Poison Prevention Packaging Act of 1970 (“PPPA”), 15 U.S.C. 1471-1476, provides the Commission with authority to establish standards for the “special packaging” of household substances, such as drugs, when child resistant packaging is necessary to protect children from serious personal injury or illness due to the substance and the special packaging is technically feasible, practicable, and appropriate for such substance. Accordingly, the Commission requires that oral prescription drugs be in child resistant (“CR”) packaging. 16 CFR 1700.14(a)(10).

The Commission’s regulations allow companies to petition the Commission for exemption from CR requirements. 16 CFR Part 1702. Possible grounds for granting the exemption are that:

(a) The degree or nature of the hazard to children in the availability of the substance, by reason of its packaging, is such that special packaging is not required to protect children from serious personal injury or serious illness resulting from handling, using or ingesting the substance, or

(b) Special packaging is not technically feasible, practicable, or appropriate for the subject substance, or

(c) Special packaging is incompatible with the particular substance. 16 CFR 1702.17.

On July 10, 1997, Orphan Medical, Inc. (“Orphan Medical”) petitioned the Commission to exempt its product, Sucraid, from the special packaging
