## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Substance Abuse and Mental Health Services Administration (SAMHSA)

#### Correction of Meeting Notice

Pursuant to Pub. L. 92-463, notice is hereby given of a correction of a notice of meeting of the SAMHSA Special Emphasis Panel II meeting to be held in July 1998.

Public notice was given in the **Federal Register** on June 9, 1998 (Volume 63, Number 110, page 31517) that the SEP II would be meeting on July 1, 1998, at the Parklawn Building, Room 16C-26. The date of this meeting has subsequently changed to June 29, 1998. The agenda of the meeting and the contact for additional information remain as announced.

Dated: June 9, 1998.

**Jeri Lipov,**

*Committee Management Officer, Substance Abuse and Mental Health Services Administration.*

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4351-N-06]

### Notice of Proposed Information Collection for Public Comment

**AGENCY:** Office of the Assistant Secretary for Policy Development and Research, HUD.

**ACTION:** Notice.

**SUMMARY:** The proposed information collection requirement described below will be submitted to the Office of

Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

**DATES:** Comments are due on or before August 14, 1998.

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and should be sent to: Reports Liaison Officer, Office of Policy Development and Research, Department of Housing and Urban Development, 451 7th Street, SW., Room 8226, Washington, DC 20410.

#### FOR FURTHER INFORMATION CONTACT:

Alan Fox, Economic and Market Analysis Division, Office of Policy Development and Research, Department of Housing and Urban Development, 451 7th Street, SW., Room 8222, Washington, DC 20410; telephone (202) 708-0614, Extension 5863; e-mail alan\_fox@hud.gov. This is not a toll-free number. Copies of the proposed forms and other available documents submitted to OMB may be obtained from Mr. Fox.

**SUPPLEMENTARY INFORMATION:** The Department of Housing and Urban Development will submit the proposed information collection package to OMB for review as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended.)

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

*Title of Proposal:* Section 8 Random Digit Dialing Fair Market Rent Telephone Survey.

*OMB Control Number:* 2528-0142.

*Description of the need for the information and proposed use:* This provides HUD with a fast, inexpensive way to estimate and update Section 8 Fair Market Rents (FMRs) in areas not covered by AHS or CPI surveys, and in areas where FMRs are believed to be incorrect. It also provides estimates of annual rent changes. Section 8(C)(1) of the United States Housing Act of 1937 requires the Secretary to publish Fair Market Rents (FMRs) annually to be effective on October 1 of each year. FMRs are used for the Section 8 Rental Certificate Program (including space rentals by owners of manufactured homes under that program); the Moderate Rehabilitation Single Room Occupancy program; housing assisted under the Loan Management and Property Disposition programs; payment standards for the Rental Voucher program; and any other programs whose regulations specify their use.

Random digit dialing (RDD) telephone surveys have been used for several years to adjust FMRs. These surveys are based on a sampling procedure that uses computers to select statistically random samples of telephone numbers to locate certain types of rental housing units for surveying. HUD contracts with a private company to conduct two types of RDD surveys: (1) Approximately 50 individual FMR areas are surveyed every year to test the accuracy of their FMRs; (2) In addition, 20 RDD surveys are conducted every year to provide updating factors for FMRs not surveyed individually and for Annual Adjustment Factors (AAFs). These surveys are conducted in the nonmetropolitan portions of all 10 HUD regions, and in the 10 metropolitan portions that do not have their own Consumer Price Index (CPI) surveys.

Members of affected public: Individuals or households living in areas surveyed.

*Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:* The RDD surveys require a great many telephone calls to reach the required number of eligible respondents—those living in 1 or 2 bedroom nonsubsidized rental housing,

who had moved in recently. Most numbers are screened out on the first completed telephone call, which is brief. The few that are eligible are asked a longer series of questions, for a total elapsed time of about 4 minutes each. Information collection is voluntary.

*Status of the proposed information collection:* Pending OMB approval.

**Authority:** The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended; and Section 8(C)(1) of the United States Housing Act of 1937.

Dated: June 8, 1998.

**Paul A. Leonard,**

*Deputy Assistant Secretary for Policy Development.*

BILLING CODE 4210-62-M

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

#### **Notice of Intent (Notice) To Prepare an Environmental Impact Statement (EIS) on the Development of a Comprehensive Conservation Plan for Stillwater National Wildlife Refuge (NWR) Complex, Churchill and Storey Counties, Nevada, and a Boundary Revision for Stillwater NWR, Churchill County**

**AGENCY:** Fish and Wildlife Service, Department of the Interior.

**ACTION:** Notice of intent.

**SUMMARY:** The Fish and Wildlife Service is preparing an EIS for a comprehensive conservation plan for Stillwater NWR Complex and an associated boundary revision for Stillwater NWR. Stillwater NWR Complex currently consists of Stillwater NWR, Fallon NWR, Stillwater Wildlife Management Area (WMA), and Anaho Island NWR.

**DATES:** To ensure that the Service has adequate time to evaluate and incorporate suggestions and other input into the planning process, comments must be received by July 17, 1998.

**ADDRESSES:** Send written comments, or requests to be added to the mailing list, to the following address: Stillwater NWR Complex CCP/Boundary Revision, c/o Refuge Manager, Stillwater National Wildlife Refuge Complex, P.O. Box 1236, Fallon, Nevada 89407, telephone (702) 423-5128.

**SUPPLEMENTARY INFORMATION:** The first notification of the intent to prepare an EIS on the development of a comprehensive conservation plan for Stillwater NWR Complex, including a boundary revision for Stillwater NWR, was published in the **Federal Register**

on March 14, 1997 in a Notice of Intent to prepare an EIS and hold public scoping workshops on water resources management proposals in the Truckee and Carson Rivers, Churchill, Douglas, Lyon, Storey, and Washoe Counties, Nevada (Pages 12245-12246, Volume 62, Number 50). Comprehensive conservation planning at the Stillwater NWR Complex, including the Stillwater NWR boundary revision, was one of four Federal actions covered in the March 14, 1997 Notice for this Department of the Interior EIS. Scoping meetings were held on March 10, 11, and 19, 1997 in Fallon, Fernley, and Reno, Nevada, respectively, to identify potential issues related to various water resource management proposals in the Truckee and Carson River drainages, including the development of a comprehensive conservation plan and boundary revision for Stillwater NWR Complex. During March, April, and July 1997, a total of six additional open-house workshops were conducted in Fallon and Reno specifically to address the comprehensive conservation plan and boundary revision. A number of other meetings have been held with the Nevada Division of Wildlife, Fallon Paiute-Shoshone Tribe, Pyramid Lake Paiute Tribe, Churchill County, City of Fallon, and various organizations and individuals to gain additional information about issues relevant to the comprehensive conservation plan and boundary revision. Comments received from the public during these meetings constitute the bulk of the public scoping comments being used by the Fish and Wildlife Service to prepare a separate draft EIS on comprehensive conservation planning and boundary revisions for Stillwater NWR Complex, which will no longer be analyzed in a Department of the Interior EIS on water resources management proposals in the Truckee and Carson Rivers.

Wetlands on Stillwater NWR and Stillwater WMA are located at the terminus of the Carson River. They are major components of the Lahontan Valley wetland ecosystem. Stillwater NWR, Stillwater WMA, and Fallon NWR also encompass significant upland habitats, including parts of a 25-mile-long sand dune complex. Anaho Island NWR is located on Pyramid Lake within the Pyramid Lake Paiute Reservation, at the terminus of the Truckee River in Storey County, Nevada.

#### **Comprehensive Conservation Plan**

A comprehensive conservation plan is being developed for the Stillwater NWR Complex in accordance with the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C.

6688dd *et seq.*), as amended. This act requires the Fish and Wildlife Service to prepare comprehensive conservation plans for all refuges in the Refuge System. The comprehensive conservation plan for the Stillwater NWR Complex will cover a 15-year planning period and will identify goals, objectives, strategies, and a monitoring program for achieving refuge purposes and contributing to the mission of the Refuge System. Care will be taken to ensure consistency with the National Wildlife Refuge System Administration Act, as amended; other applicable laws and international treaties; Fish and Wildlife Service policy; and sound principles of biodiversity conservation and other aspects of natural resources management. The mission of the Refuge System "is to administer a national network of lands and waters for the conservation, management, and where appropriate, restoration of the fish, wildlife, and plant resources and their habitats within the United States for the benefit of present and future generations of Americans."

Stillwater NWR and Stillwater WMA were originally established in 1948 as part of an agreement (Tripartite Agreement) between the Fish and Wildlife Service, Nevada Division of Wildlife, and the Truckee-Carson Irrigation District. Stillwater WMA, which was established for the co-equal purposes of conserving wildlife and public hunting, will cease to exist after November 26, 1998, when the 50-year Tripartite Agreement expires. The Tripartite Agreement also specified that livestock grazing and muskrat trapping were to be managed commensurate with wildlife conservation and hunting. Anaho Island was originally established in 1913 under Executive Order 1819 as a preserve and breeding ground for native birds. Fallon NWR was established in 1931 for the purpose of providing a refuge and breeding ground for birds and other wildlife.

The Truckee-Carson-Pyramid Lake Water Settlement Act of 1990 (Title II of Public Law 101-618) enlarged Stillwater NWR by reducing the size of Stillwater WMA and directed the Secretary of the Interior to manage Stillwater NWR for the following purposes:

- (A) restoring and maintaining natural biological diversity within the refuge;
- (B) conserving and managing fish, wildlife, and their habitat within the refuge;
- (C) fulfilling international treaty obligations with respect to fish and wildlife; and
- (D) providing opportunities for scientific research, environmental
