**SUPPLEMENTARY INFORMATION:****I. Introduction**

The Pesticide Product Label System (PPLS), a software product developed by EPA's Office of Pesticide Programs (OPP), contains images of registered pesticide product labels submitted by pesticide registrants and accepted by the OPP since 1971. The 1998 PPLS replaces the 1997 PPLS in its entirety.

The label images have been indexed by company, product, and date. The retrieval program allows the user to search by registration number, which is a combination of company number and product number. Searches can be conducted based on partial numbers if the complete number is unknown. Search results are displayed in full screen format and single or multiple pages can be printed.

Some label amendments address only portions of the label and may not represent the complete label. Review of all updates for a single product may be necessary. The label images represent the product at the time the labeling was accepted. The product may have been transferred to another company or canceled since the date the label was accepted and such status information is not reflected in this system.

The quality of the images varies greatly as it is dependent on the quality of the label submitted to and accepted by OPP. Since the initial version of the PPLS is the product of a conversion from images stored on microfiche, some oversized images are represented as two separate documents and will require retrieval of both to obtain the complete image.

Regulations governing the labeling requirements of pesticide products are contained in 40 CFR Chapter 1.

**FEDERAL COMMUNICATIONS COMMISSION**

[CC Docket No. 90-571; DA 98-1118]

**Notice of Telecommunications Relay Services (TRS); Certification**

Released: June 11, 1998.

Notice is hereby given that the applications for certification of state Telecommunication Relay Services (TRS) programs of the states listed below have been granted, subject to the condition described below, pursuant to Title IV of the Americans with Disabilities Act of 1990, 47 U.S.C. 225(f)(2), and section 64.605(b) of the Commission's rules, 47 CFR 64.605(b). The Commission will provide further Public Notice of the certification of the remaining applications for certification once review of those states' applications has been completed. On the basis of the states applications, the Commission has determined that:

(1) The TRS program of the listed states meet or exceed all operational, technical, and functional minimum standards contained in section 64.604 of the Commission's rules, 47 CFR 64.604;

(2) The TRS programs of the listed states make available adequate procedures and remedies for enforcing the requirements of the state program; and,

(3) The TRS programs of the listed states in no way conflict with federal law.

The Commission also has determined that, where applicable, the intrastate funding mechanisms of the listed states are labeled in a manner that promotes national understanding of TRS and does not offend the public, consistent with section 64.605(d) of the Commission's rules, 47 CFR 64.605(d).

On May 14, 1998, the Commission adopted a Notice of Proposed

Rulemaking that proposes ways to enhance the quality of existing telecommunications relay services (TRS) and expand those services for better use by individuals with speech disabilities. See Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, CC Docket No. 98-67, FCC 98-90 (rel. May 20, 1998). Because the Commission may adopt changes to the rules governing relay programs, including state relay programs, the certification granted herein is conditioned on a demonstration of compliance with any new rules ultimately adopted by the Commission. The Commission will provide guidance to the states on demonstrating compliance with such rule changes.

This certification, as conditioned herein, shall remain in effect for a five year period, beginning July 26, 1998, and ending July 25, 2003, pursuant to 47 CFR 64.605(c). One year prior to the expiration of this certification, July 25, 2002, the states may apply for renewal of their TRS program certifications by filing documentation in accordance with the Commission's rules, pursuant to 47 CFR 64.605(a) and (b).

Copies of certification letters are available for public inspection at the Commission's Common Carrier Bureau, Network Services Division, Room 235, 2000 M Street, N.W., Washington, D.C., Monday through Thursday, 8:30 AM to 3:00 PM (closed 12:30 to 1:30 PM) and the FCC Reference Center, Room 239, 1919 M Street, N.W., Washington, D.C., daily, from 9:00 AM to 4:30 PM.
