

and Compressed Work Schedules Act, the schedule or proposed schedule which is the subject of the agency's determination and the finding on which the determination is based.

Need and Use of the Information: The information to be collected by the Request for Assistance is required for the Panel to be able to process and decide collective bargaining impasses arising under the Federal Service Labor-Management Relations Statute, 5 U.S.C. 7119. The information collected on the form is to be used to enable Panel staff employees to contact affected parties in impasse proceedings, and to enable staff employees to take the necessary steps to begin the processing of the Request for Assistance. The form will be provided to members of the public to initiate an impasse proceeding before the Panel. The petition form is filed with the Panel's office. Use of the form is not required to obtain Panel assistance, however, so long as the written request by a party for assistance contains the information requested on the form.

Description of Respondents: Federal employees representing federal agencies in their capacity as employer and federal employees and employees of labor organizations that are representing those labor organizations, are the members of the public who may file the Request for Assistance form.

Number of Respondents:

Approximately 160 per year.

Frequency of Response: On occasion, as collective bargaining impasses arise.

Total Burden Hours: Approximately one-half hour per petition (80 hours per year).

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chap. 35, as amended.

Dated: June 11, 1998.

H. Joseph Schimansky,

Executive Director, Federal Service Impasses Panel.

Centers for Disease Control and Prevention

[Announcement Number 98084]

Notice of Availability of Funds for 1998; State Cardiovascular Health Programs

Introduction

The Centers for Disease Control and Prevention (CDC), announces the availability of fiscal year (FY) 1998 funds for a cooperative agreement program for State-based cardiovascular health programs. This announcement is the first of its kind and contains cardiovascular health program design components considered essential to increasing the leadership of State health departments in cardiovascular disease prevention and control. The essential components are characterized by definition of the cardiovascular disease problem within the State; development of partnerships and coordination among concerned nongovernmental and governmental partners; development of effective strategies to reduce the burden of cardiovascular diseases and related risk factors with an overarching emphasis on heart healthy policies and physical and social environmental changes at all levels as interventions; and monitoring of all the critical aspects of cardiovascular diseases.

To improve the cardiovascular health of all Americans, every State health department should have the capacity, commitment, and resources to carry out comprehensive cardiovascular disease prevention and control programs. Applicants may apply for one, but not both, of the following levels of support:

1. A Core Capacity Program to develop basic cardiovascular disease program functions and activities at the State level such as partnerships and program coordination, scientific capacity, inventory of policy and environmental strategies, State plan for cardiovascular diseases, training and technical assistance, strategies for addressing Priority Populations, and intervention strategies.

2. A Comprehensive Program to implement and disseminate intervention activities throughout the State using health care settings, work sites, schools, media, the government, and community-based organizations as primary modes of intervention for cardiovascular diseases.

One optional enhanced school health program. Additional funding may be available for either a Core Capacity
