Funding is provided by BPA. Incidental takes of ESA-listed anadromous fish species as a result of releases from the captive broodstock program are also authorized. Permit 1120 expires on December 31, 2002.

Notice was published on 16 April, 1998 (63 FR 73) that an application had been filed by NWFSC-ECD for a 5-year scientific research permit. Permit 1140 was issued on June 12, 1998. Permit 1140 authorizes direct takes of juvenile, endangered, Snake River fall chinook salmon and juvenile, threatened, SONCC coho salmon associated with a research study designed to assess the relationship between environmental variables, selected anthropogenic stresses, and bacterial and parasitic pathogens on disease-induced mortality in juvenile salmon in selected coastal estuaries in Oregon and Washington. The results of the study will benefit listed species by providing a better understanding of how environmental factors influence disease. Permit 1140 expires on December 31, 2002.

Dated: June 15, 1998.

## CONSUMER PRODUCT SAFETY COMMISSION

### Notification of Request for Extension of Approval of Information Collection Requirements—Recordkeeping Requirements Under the Safety Regulations for Full-Size Cribs

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice.

**SUMMARY:** In the April 7, 1998 **Federal Register** (63 FR 16988), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek an extension of approval through September 30, 2001, of information collection requirements in the safety regulations for full-size cribs (16 CFR 1500.18(a)(13) and Part 1508). The Commission now announces that it has submitted to the Office of Management and Budget a

request for extension of approval of that collection of information.

These regulations were issued to reduce hazards of strangulation, suffocation, pinching, bruising, laceration, and other injuries associated with full-size cribs. (A full-size crib is a crib having an interior length ranging from 49<sup>3</sup>/<sub>4</sub> inches to 55 inches and an interior width ranging from 25<sup>3</sup>/<sub>8</sub> to 30<sup>5</sup>/<sub>8</sub> inches.) The regulations prescribe performance, design, and labeling requirements for full-size cribs. They also require manufacturers and importers of those products to maintain sales records for a period of three years after the manufacture or importation of full-size cribs. If any full-size cribs subject to provisions of 16 CFR 1500.18(a)(13) and Part 1508 fail to comply in a manner severe enough to warrant a recall, the required records can be used by the manufacturer or importer and by the Commission to identify those persons and firms who should be notified of the recall.

## CONSUMER PRODUCT SAFETY COMMISSION

### Notification of Request for Extension of Approval of Information Collection Requirements—Recordkeeping Requirements Under the Safety Regulations for Non-Full-Size Cribs

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice.

**SUMMARY:** In the April 7, 1998 **Federal Register** (63 FR 16989), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek an extension of approval through September 30, 2001, of information collection requirements in the safety regulations for non-full-size cribs (16 CFR 1500.18(a)(14) and Part 1509). The Commission now announces that it has submitted to the Office of Management and Budget a request for extension of approval of that collection of information.

These regulations were issued to reduce hazards of strangulation, suffocation, pinching, bruising, laceration, and other injuries associated with non-full-size cribs. (A non-full-size crib is a crib having an interior length greater than 55 inches or smaller than 49<sup>3</sup>/<sub>4</sub> inches; or an interior width greater than 30<sup>5</sup>/<sub>8</sub> inches or smaller than 25<sup>3</sup>/<sub>8</sub> inches; or both.) The regulations prescribe performance, design, and labeling requirements for non-full-size cribs. They also require manufacturers and importers of those products to maintain sales records for a period of three years after the manufacture or importation of non-full-size cribs. If any non-full-size cribs subject to provisions of 16 CFR 1500.18(a)(14) and Part 1509 fail to comply in a manner severe enough to warrant a recall, the required records can be used by the manufacturer or importer and by the Commission to identify those persons and firms who should be notified of the recall.

### CONSUMER PRODUCT SAFETY COMMISSION

#### Notification of Request for Extension of Approval of Information Collection Requirements—Testing and Recordkeeping Requirements Under the Standard for the Flammability of Mattresses and Mattress Pads

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice.

**SUMMARY:** In the April 7, 1998 **Federal Register** (63 FR 16989), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek an extension of approval through September 30, 2001, of information collection requirements in the Standard for the Flammability of Mattresses and Mattress Pads (16 CFR Part 1632).

In response to the **Federal Register** notice, one comment was received, from the American Textile Manufacturers Institute (ATMI). In its comment, ATMI supported the extension of approval of the collection of information, adding that "the costs incurred with this data collection are minimal and are now part of business practices for these two industry sectors." The Commission now announces that it has submitted to the Office of Management and Budget a request for extension of approval of that collection of information.

The standard is intended to reduce unreasonable risks of burn injuries and deaths from fires associated with mattresses and mattress pads. The standard prescribes a test to assure that a mattress or mattress pad will resist ignition from a smoldering cigarette. The standard requires manufacturers to perform prototype tests of each combination of materials and construction methods used to produce mattresses or mattress pads and to obtain acceptable results from such testing. Sale or distribution of mattresses without successful completion of the testing required by the standard violates section 3 of the Flammable Fabrics Act (15 USC 1192). An enforcement rule implementing the standard requires manufacturers to maintain records of testing performed in accordance with the standard and other information about the mattress or mattress pads which they produce.
