**SUPPLEMENTARY INFORMATION:**

#### I. Abstract

The Census Bureau plans to resubmit the Survey of Plant Capacity. Data are gathered from a sample of manufacturing plants in the United States. The survey forms collect data on the value of plant production during actual operations and at full production capability.

This resubmission is to address proposed changes to the MQ-C1 form. We plan to expand one item to collect plant operations data by shift. We also plan to collect the number of temporary production workers and hours worked by temporary production workers in addition to the total number of production workers and hours worked.

In the 1997 survey, the reference period covers the fourth quarter of the survey year only rather than the fourth quarter of the survey year and the prior year. This change decreased the respondent burden from 2 hours to 1.25 hour per respondent. Based on discussions with potential respondents, we estimate that the new data will require about 1.5 hours to complete. Therefore we estimate the total respondent burden to complete the revised form to be 2.75 hours.

The survey data are used in measuring inflationary pressures and capital flows, in understanding productivity determinants, and in analyzing and forecasting economic and industrial trends. The survey results are used by such agencies as the Federal Reserve Board, Federal Emergency Management Agency, International Trade Administration, and the Department of Defense.

#### II. Method of Collection

The Census Bureau mails out survey forms to collect the data. Companies are asked to respond to the survey within 30 days of the initial mailing. Letters encouraging participation are mailed to companies that have not responded by the designated time.

#### 1999 American Community Survey—Group Quarters Screening—Form ACS-2(GQ)

**ACTION:** Proposed collection; comment request.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506(c)(2)(A)).

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

In 1999 the American Community Survey (ACS) will be conducted in 53 counties. Data from the ACS will determine the feasibility of a continuous measurement system that provides socioeconomic data on a continual basis throughout the decade. The Census Bureau must provide a sample of persons residing in Group Quarters (GQs) the opportunity to be interviewed for the ACS. GQs include places such as student dorms, correctional facilities, hospitals, nursing homes, shelters, and military quarters. Obtaining characteristic information from the GQs will ensure that we include the necessary people residing at GQs in the 1999 ACS.

A GQ screening operation is being conducted in conjunction with 1998 ACS activities. This request revises the existing GQ clearance for use in the 1999 ACS. Major changes are in the estimated number of respondents and in the estimated time per response. In 1998 we are screening a sample of the GQs in eight counties. In 1999 we will screen a sample of the GQs in 53 counties. After completing one-third of the 1998 screening, we have learned that screening averages about 20 minutes per response instead of 10 minutes as originally estimated. In 1999 we will use the same questionnaire for screening that we are using in 1998, Form ACS-2(GQ), ACS GQ Screening.

We will telephone a sample of GQs in the 53 counties where the 1999 ACS will be conducted. We will verify/update information such as GQ name, address, type, and phone number. We will screen to determine if the residents stay for less than 30 days and have another place to live. If so, the GQ will be classified as out-of-scope for ACS interviewing. If the GQ is in-scope, we will screen to determine if we can complete ACS interviews of the GQ residents by mail, thus saving the expense of personal visits. We will obtain a list of rooms and/or residents from which we can select a sample. All

ACS interviewing will be conducted under OMB clearance number 0607-0810.

**II. Method of Collection**

Telephone interviews will be conducted from Census Bureau's National Processing Center in Jeffersonville, Indiana.
