

National Trail Study, Hawaii (FEIS/NTS).

The National Park Service recommends a continuous historic trail management strategy for this trail along and near the coast of Hawaii. This strategy (described as the Proposed Action, Alternative B) and three other alternatives were detailed and analyzed in the Final Environmental Impact Statement issued in April, 1998. The findings in the FEIS/NTS include: (1) the Ala Kahakai meets all three criteria for a national historic trail (as outlined in the National Trails System Act); (2) establishing a continuous trail is physically feasible; (3) local communities, landowners, and native Hawaiians must be involved in planning and implementing the trail, should it be designated by Congress.

The National Park System Advisory Committee has corroborated the national historical significance of the Ala Kahakai. The FEIS/NTS and Record of Decision (ROD) will be transmitted to Congress by the Secretary of the Interior. Copies of the ROD may be obtained from the Superintendent, Pacific Great Basin Support Office, 600 Harrison Street, Suite 600, San Francisco, CA 94107-1372, (415) 427-1438.
