—The proposed use will substantially increase the number of motor vehicles at the facility.

—The site and scale of construction are not consistent with those of existing adjacent or nearby buildings.

—There is evidence of current or potential community controversy about environmental justice or other environmental issues.

- Space acquisition programs projected for a substantial geographical area (e.g., a metropolitan area) for a 3-to-5-year period or greater (Note: a PEIS is often appropriate here, off which subsequent EISs and EAs can be tiered).
