

and trade similarly to shares of common stock.

The Amex also trades fund shares known as World Equity Benchmark Shares ("WEBS") which are issued by an open-end management investment company consisting of seventeen separate series based on seventeen foreign equity market indexes.⁵ The investment objective of each series is to provide results that correspond to the aggregate price and yield performance of publicly traded securities in a particular market as represented by a particular foreign equity index.

The Amex has proposed trading options on exchange-traded trust units and fund shares pursuant to the same rules and procedures that are generally applicable to trading in options on equity securities with only minor differences that affect their clearance and settlement.⁶ These differences are that options on trust units and fund shares would be listed as European-style options only and that each option contract would cover 1000 trust units or fund shares as the unit of trading.

The general rights of a holder of a single call equity option contract are set forth in Article VI, Section 9(a) of OCC's by-laws, and the general rights of a holder of a single put equity option contract are set forth in Article VI, Section 9(b) of OCC's by-laws. Because options on trust units or fund shares are deemed equity option contracts under OCC's rules, OCC is amending Section 9(a) and (b) of Article VI to set forth the general rights of a holder of a single European-style equity call option⁷ and a single European-style equity put option,⁸ respectively. Furthermore, OCC is amending Interpretations and Policy .01 to Section 9, which provides that subsections (a) and (b) of Section 9 apply only to stock option contracts to clarify that the term "stock option

⁵ The initial series offered by this investment company are: the Australia Index Series; the Austria Index Series; the Belgium Index Series; the Canada Index Series; the France Index Series; the Germany Index Series; the Hong Kong Index Series; the Italy Index Series; the Japan Index Series; the Malaysia Index Series; the Mexico (Free) Index Series; the Netherlands Index Series; the Singapore (Free) Index Series; the Spain Index Series; the Sweden Index Series; the Switzerland Index Series; and the United Kingdom Index Series.

⁶ *Supra* note 3.

⁷ A holder of a single European-style call option contract will have the right on and only on the expiration date, expiring at the expiration time on such date, to purchase from OCC at the aggregate exercise price the number of units of the underlying security represented by such option contract.

⁸ A holder of a single European-style put option contract will have the right on and only on the expiration date, expiring at the expiration time on such date, to sell to OCC at the aggregate exercise price the number of units of the underlying security represented by such option contract.

contracts" will include option contracts on publicly traded interests in trust units, fund shares, or shares in entities similar to investment companies that hold portfolios or baskets of common stock.

OCC is adding Interpretation and Policy .01 to Article VI, Section 10 of the by-laws to reflect that, for series of options in which the underlying security is trust units or fund shares, the unit of trading is the amount of the underlying security deliverable upon the exercise of the option as specified by the exchange on which the option is traded unless otherwise specified by OCC in accordance with its by-laws and rules.

In addition, OCC is adding Rule 807 to its rules. The rule contains essentially the same provisions as those found in Interpretations and Policy .08 to Article VI, Section 11 of the by-laws.⁹ Rule 807 sets forth the general provision that when a flexibly structured option contract with a European-style expiration has been adjusted to require upon exercise the delivery of a fixed amount of cash, the expiration date with respect to the option will be accelerated to fall on or shortly after the date on which the conversion of the underlying security to a right to receive cash occurs. The ability to accelerate an expiration date following an adjustment calling for a fixed amount of cash was added specifically to accommodate European-style, flexibly-structured equity options. Without the ability to accelerate, the option position would have to be maintained until it could be exercised at its regular expiration. For the same reason, OCC is making this applicable to all European-style stock option contracts. In connection with the addition of Rule 807, OCC is amending the term "expiration date" as defined in Article I, Section 1 of OCC's by-laws, to provide that the expiration date of a stock option contract is subject to the acceleration provisions of the new rule.

II. Discussion

Section 17A(b)(3)(F) of the Act¹⁰ requires that the rules of a clearing agency be designed to assure the safeguarding of securities and funds in its custody or control or for which it is responsible. The Commission believes the rule change is consistent with OCC's obligation under the Act because OCC will clear and settle options on trust units and fund shares by using existing

⁹ Section 11 sets forth the general rules pertaining to adjustments on stock option contracts. OCC has deleted Section .08 from the Interpretations and Policies and moved these provisions to new Rule 807.

¹⁰ 15 U.S.C. 78q-1(b)(3)(F).

OCC systems, rules, and procedures. Thus, OCC should be able to implement the clearance and settlement of options on trust units and fund shares in a safe manner consistent with its statutory obligation due to the similarity of options on trust units and fund shares to option products currently cleared and settled by OCC.

III. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act and in particular Section 17A of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (File No. SR-OCC-97-02) be and hereby is approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.¹¹

Margaret H. McFarland,

Deputy Secretary.
